Operating environment in 2018

The Finnish economy is expected to experience strong growth in 2018. Alma Media's significant operating countries in Eastern Central Europe, such as the Czech Republic and Slovakia, are expected to see economic growth of 3–4%. The structural transformation of the media will continue in 2018; online content sales will grow, while the demand for print media will decline.

Outlook for 2018 (Unchanged)

In 2018, Alma Media expects its full-year revenue to remain at the previous year's level and its adjusted operating profit to increase from the 2017 level. The full-year revenue for 2017 was MEUR 367.3, and the adjusted operating profit was MEUR 51.1.

Market situation in the main markets

According to Kantar TNS, the total advertising volume in Finland decreased by 0.6% (2.2%) in July–September 2018, while advertising in online media increased in Finland by 2.4% (10.1%) in the third quarter. Advertising in city papers and newspapers declined by 7.5% (10.9%) in Finland. Advertising in magazines in Finland decreased in July–September 2018 by 2.8% (8.9%). In terms of volume, the total market for afternoon papers in Finland declined by 10.7% (12.1%) in the third quarter of 2018.

According to Sveriges Mediebyråer, the total advertising volume in Sweden increased by 6.7% (3.6%) in July–September 2018. Advertising in online media grew by 5.2% (9.8%) in Sweden. Advertising in trade magazines in Sweden decreased by 17.5% (8.1%).

Alma Media's main markets in Eastern Central Europe are the Czech Republic and Slovakia. According to the European Commission's forecast, the Czech Republic's GDP will grow by 3.0% in 2018. The Czech National Bank estimates that the GDP will grow by 3.2% in 2018 and 3.4% in 2019. In Slovakia, GDP growth in 2018 will be 3.9% according to the European Commission. The Czech National Bank estimates that the GDP will grow by 4.3% in 2018 and 4.7% in 2019.

Kai Telanne, President and CEO:

Alma Media's profitability continued to develop favourably in the third quarter. The adjusted operating profit for July–September was MEUR 15.1 and the operating profit margin was 18.5 per cent. Alma Markets, which specialises in digital marketplaces and the recruitment business, continued its strong profit performance. Relative profitability was also improved by the divestment of businesses with negative or low profitability. Alma Media's revenue in July–September declined, as expected, due to divestments. Revenue decreased by 5.1 per cent and amounted to MEUR 81.6.

While the Finnish economy is estimated to be at the peak of its current boom period, the domestic media advertising decreased by 0.6 per cent in July–September according to Kantar TNS. The reason behind the low level of advertising investment is the ongoing shift from traditional newspaper advertising to digital advertising, advertisers investing in their own media and marketing technologies, and intensifying competition between domestic media agencies and international platforms.

Alma Markets continued to grow in the third quarter while maintaining an excellent level of profitability (operating profit margin 39.3 per cent). Revenue growth in the recruitment business slowed down slightly compared to the first half of the year, but the demand for recruitment services in Eastern Central Europe remains at a good level due to strong economic growth. Marketing investments in a new mobile recruitment service in Poland continued during the period. In Finland, favourable economic development boosted the sales of online services related to housing and cars.

Alma Talent's adjusted operating profit for July–September was on a par with the comparison period, at MEUR 2.8. Alma Talent's transformation strategy is focused on the renewal of media and pursuing growth in digital content revenue and digital subscriptions. The segment performed in line with targets in these areas during the review period, which helped compensate for the decline of print media. The measures aimed at reorganising operations in Sweden continued during the period. The focus of the segment's operations has also been sharpened by divesting unprofitable and non-synergistic businesses.

Alma Consumer's revenue was reduced by the divestment of newspapers in Lapland. The development of profitability was affected by the lower single-copy sales of Iltalehti and the decreasing print media advertising revenue of regional and local media, although the rate of decline in print advertising revenue was slower than in the market in general. In the segment's digital advertising, mobile and video advertising developed favourably and content marketing grew substantially year-on-year. The programmatic buying market has partially recovered of the entry into force of the GDPR, which affected its development in the previous quarter.

In July, we sold an office and production property in Tampere. The sale did not have a significant effect on profit, but it frees up capital for the development of the core businesses. Our equity ratio stood at 56.0 per cent at the end of September, while gearing was 12.1 per cent.

The decision of the EU Council to allow value added tax on digital publications to be lowered from 24 per cent to 10 per cent represents a positive outcome. We believe the decision will lead to increased demand and consumption of digital services and content in Finland. This, in turn, will help maintain the vitality of domestic media companies and improve their ability to perform their duty of maintaining the education and awareness of the public, which is an important role played by high-quality media.

Strategy and related activities during the review period

Alma Media creates sustainable growth by taking advantage of the opportunities presented by the digital transformation. The objective is to increase shareholder value through revenue growth and improved profitability. Alma Media is developing and expanding its current business operations and seeking growth opportunities in new businesses and markets. The company will remain on the path of internationalisation. In addition to organic growth, the improvement of profitability will be accelerated by acquisitions.

Alma Media will respond to consumers' changing media consumption and build its publishing brands into multi-channel media solutions. In the media business, the shift from print to digital media will continue with the development of digital content and marketing solutions in line with customer needs, ensuring that the Group's media are valued as the leading brands in their respective regions and communities. In order to increase service

revenue, Alma Media will increase its digital offering by launching new products and services, also outside publishing operations.

For the 2018–2020 strategy period, Alma Media has selected five strategic Group-level initiatives that are particularly aimed at the growth and development of digital business. Cooperation and synergies between the Group’s various businesses will be leveraged in the execution of the initiatives. The strategic initiatives are as follows: 1) centralised national media sales through Alma Media Solutions; 2) aiming for growth in digital content revenue through eCom; 3) utilising data in business while taking regulatory requirements into consideration; 4) Alma themes and services focused on special content areas and services; and 5) growth and management of visitor traffic.

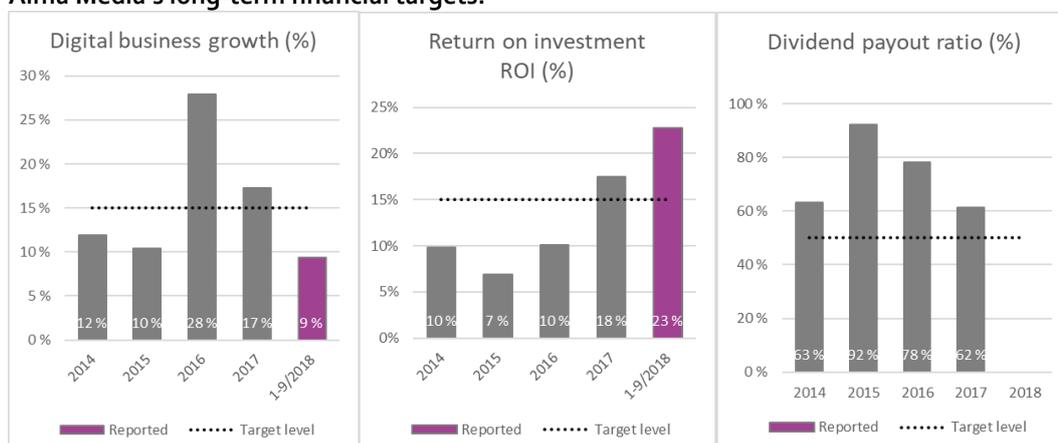

During the review period, the investments in the increased production of digital content were seen in Alma Media’s editorial offices in the form of the gradual deployment of tools for producing digital content more efficiently than before. The tools also promote cooperation between editorial offices and increase the transparency of content streams. Several online service renewal initiatives were also carried out during the review period. The online service of Mikrobitti magazine was redesigned in August. The redesign saw some of the articles on the website moved behind a paywall. A special aspect of the redesign was that Mikrobitti.fi now recognises users of ad blockers and allows subscribers to use ad blocking software. The Kauppa-lehti, Aamulehti and Satakunnan Kansa websites were also redesigned and their mobile use, in particular, was improved.

The measures aimed at increasing digital content revenue as part of the strategic eCom initiative continued. In content sales, the development areas included analytics that can be used to predict reader loyalty and subscriber potential as well as plan measures aimed at reducing subscriber churn, such as the personalisation of the website and the customer path.

The strategic initiatives also include the centralised national media sales unit Alma Media Solutions. After being established as a pilot project in 2015, Alma Media Solutions has grown into a matrix organisation with 170 members over the course of just a few years. The goals of the initiative include increasing market share in advertising sales, promoting the programmatic buying of advertising and introducing new products and service solutions as part of the media offering. The advertising sales and related support functions of Alma Media Solutions and Alma Consumer were combined during the review period in a move that further strengthens Alma Media Solutions’ regional sales and marketing efforts. As growth in the desktop display advertising market is levelling off, Alma Media Solutions is focusing on mobile marketing, content marketing and programmatic buying. In addition, the more effective use of audience data makes it possible to provide advertisers with increasingly targeted and relevant audiences as well as more accurate analytical tools for measuring the results of advertising.

To ensure profitable growth, Alma Media regularly evaluates its brand portfolio and the products and services of its businesses. Functions that are unprofitable or limited in synergies are discontinued or divested as necessary. During the review period, Alma Talent divested the media brands Dagens Media and Medievärlden by selling Dagens Media Sverige AB to Bonnier Business Media in a share transaction. In addition, Alma Career announced it will close down the Monsterpolska.pl and Monster.hu recruitment service sites and discontinue the operations of Monster Worldwide Polska SP. Z.o.o. in Poland and Monster Magyarorszag Kft in Hungary by the end of 2018. Alma Media will focus on the development and sales growth of the mobile application Praca za Rogiem in Poland and the online service Workania.hu in Hungary. Monster will continue to operate in Finland as before.

Alma Media’s long-term financial targets:

The figures are compared in accordance with the International Financial Reporting Standards (IFRS) with those of the corresponding period in 2017, unless otherwise stated. The figures in the tables are independently rounded.

Alma Media Corporation additionally uses and presents Alternative Performance Measures to better illustrate the operative development of its business and to improve comparability between reporting periods. The Alternative Performance Measures are reported in addition to IFRS key figures.

Changes in Group structure in 2018

In January 2018, Alma Mediapartners, a subsidiary of Alma Media, acquired the remaining share capital to become the full owner of AutoJerry Oy, a previously consolidated company offering competitive tender services for car servicing. Also in January 2018, Alma Media's subsidiary Alma Mediapartners Oy strengthened its software business related to construction and housing by acquiring the entire share capital of Käyttösofta Oy from its founders and acquired Katsastushinnat.fi, a marketplace for comparing vehicle inspection services, by purchasing the share capital of the service's owner Ahorouta Oy. Alma Media Group owns 65% of the Alma Mediapartners group.

Alma Media sold its newspaper and distribution business in Lapland to Kaleva effective from in April 2018. The transaction saw a change of owners of the regional newspaper Lapin Kansa, the town papers Uusi Rovaniemi and Lounais-Lappi, as well as Alma Manu Oy's distribution business in Lapland. As a result of the transaction, Alma Media recognised a non-recurring sales gain of MEUR 4.5 in the second quarter.

Alma Talent Oy, a subsidiary of Alma Media, sold its CRM system reselling and maintenance business to CRM-service. The transaction has no impact on the result of Alma Media Group.

Alma Talent Events Ab, a subsidiary of Alma Talent specialising in the events business, discontinued its operations in Sweden.

Alma Consumer's travel media Rantapallo sold the Matkapörssi and Lentokeskus business operations to Lakeuden Matkat Oy in July. The transaction has no impact on the result.

Alma Talent Ab, a subsidiary of Alma Media sold the share capital of Dagens Media Sverige Ab to Bonnier Business Media. In the transaction, Bonnier acquired the media brands Dagens Media and Medievärlden, their media business and events as well as editorial employees. The transaction does not have a significant impact on the result of Alma Media Group.

Alma Media has sold its old office and production facility at Patamäenkatu 7, Tampere, to Ab Sagax in July. The property sold has previously housed Aamulehti's office premises and printing facilities, although in recent years Alma Media has been leasing the entire premises to external tenants. Before the sale, the property was classified as an investment property according to the IAS 40 standard on Investment Property.

Alma Media's subsidiary Alma Media Kustannus Oy divested the Luoteisväylä newspaper, published in Noormarkku in Pori, to Viestintä Vallin Oy in August.

Alma Media's subsidiary Alma Career will close down the Monsterpolska.pl and Monster.hu recruitment service sites and discontinue the operations of Monster Worldwide Polska SP. Z.o.o. in Poland and Monster Magyarorszag Kft in Hungary. The operations will be phased out by the end of 2018.

Capital expenditure

Alma Media Group's capital expenditure in January–September 2018 totalled MEUR 20.8 (5.3). The capital expenditure mainly consisted of the acquisitions of Käyttösofta Oy, Autojerry Oy and Ahorouta Oy, as well as the acquisition of shares in Etua Oy. The capital expenditure also includes normal operating and maintenance investments.

Alma Media Corporation's Annual General Meeting decided on 14 March 2018 that the rights to the company's shares entered in the joint book-entry account and the rights attached to them be forfeited. The decision concerned the 198,658 shares of Alma Media Corporation that were entered in the joint account on the date of the Notice to the Annual General Meeting, 14 February 2018, and which were held as paper certificates by the shareholder. The shares that the shareholder would have validly requested to be registered to the book-entry account designated by the shareholder no later than at 12 noon EET on 14 March 2018 and regarding which the request for conversion after the conversion period would have been finalised by 30 September 2018 would have been deducted from the aforementioned number of shares. Alma Media received no requests for share registration by the specified deadline.

The AGM authorised the Board to take any and all measures required by such a resolution. The provisions on treasury shares shall apply to the forfeited shares in accordance with Chapter 3, Section 14 a, Subsection 3 of the Limited Liability Companies Act. The forfeited shares may be used to implement incentive programmes for the management or key employees, or the shares may be annulled.

Alma Media Corporation owns a total of 236,314 of its own shares, which represent 0.24 per cent of the total number of the company's shares and related votes. The total registered number of Alma Media's shares is 82,383,182, which entitle to 82,383,182 votes.

Share-based incentive scheme (LTI 2015)

In 2015, the Board of Directors of Alma Media Corporation approved the establishment of a long-term share-based incentive scheme for the key management of Alma Media (hereinafter referred to as "LTI 2015").

The objective of LTI 2015 is to align the interests of the participants with those of Alma Media's shareholders by creating a long-term equity interest for the participants and, thus, to increase the company value in the long term as well as to drive performance culture, to retain participants and to offer them with competitive compensation for excellent performance in the company.

LTI 2015 consists of annually commencing individual plans, each subject to separate Board approval. Each of the individual plans consists of three main elements: an investment in Alma Media shares as a precondition for participation in the scheme, matching shares based on the above share investment and the possibility of earning performance-based matching shares.

The Board of Directors of Alma Media Corporation has decided on four individual plans based on the LTI 2015 share-based incentive scheme: LTI 2015 I, LTI 2015 II, LTI 2015 III and LTI 2015 IV. The main terms of the incentive schemes correspond to those of the LTI 2015 share-based incentive scheme that was launched in 2015.

The matching share plan

In the matching share plan, the participant receives a fixed amount of matching shares against an investment in Alma Media shares.

In the LTI 2015 I matching share plan, the participant receives two matching shares for each invested share free of charge after a two-year vesting period, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

The performance matching plan

The performance matching plan comprises a five-year performance period in total. The potential share rewards will be delivered in tranches after three and five years if the performance targets set by the Board of Directors are attained.

The performance measures used in the performance matching plan are based on the company's profitable growth and share value. If the performance targets set by the Board of Directors are attained in full, the participant will receive in total four matching shares for each invested share free of charge, provided that the other conditions stipulated for the receipt of the share-based incentive by the terms of the plan are still satisfied at the time.

Payment of the incentive is contingent on the participant holding on to the shares invested in the plan and remaining employed by the Group for the five-year duration of the plans. The incentives are paid partly in cash and partly in shares. The cash component is intended to cover taxes incurred by the participant from the incentive.

The fair value of the reward is expensed until the matching shares are paid. The fair value of the share component is determined on the date on which the target group has agreed to the conditions of the plan. The financing costs arising from the obligation to hold shares and dividends expected during the vesting period have been deducted from the value of the share. The fair value of the plan based on the total shareholder return of the share also takes the market-based earning criteria into consideration. The cash component of the incentive is remeasured on each reporting date during the vesting period based on the price of the share on the date in question.

Share-based incentive scheme	Based on share investment (shares max) Gross amount from which taxes are deducted	Performance matching (shares max) Gross amount from which taxes are deducted	Maximum number of people entitled to participate

Risks and risk management

At Alma Media Group, the task of risk management is to detect, evaluate and monitor business opportunities, threats and risks to ensure the achievement of objectives and business continuity. The risk management process identifies and controls the risks, develops appropriate risk management methods and regularly reports on risk issues to the risk management organisation and the Board of Directors. Risk management is part of Alma Media's internal control function and thereby part of good corporate governance.

The most critical strategic risks for Alma Media are a significant drop in its print newspaper readership and a decrease in the online audience of digital media, a permanent decline in advertising sales and a significant increase in distribution and delivery costs. The group subscriptions of the major financial and technology-related magazines are significant in scale. Changes to the subscription agreements could have a substantial impact on the magazines' total subscription volumes. The media industry is undergoing changes following the transformation in media consumption and technological development. Alma Media's strategic objective is to meet this challenge by developing its digital business for consumers and businesses.

Fluctuating economic cycles are reflected in the development of advertising sales. Advertising sales account for approximately half of the Group's revenue. Business operations outside Finland, such as in Eastern and Central European countries, include country-specific risks relating to market development and economic growth. The expansion of business outside Finland has reduced the risks inherent in operating in one market area.

Disturbances of information technology and communications as well as disruption of printing are the most important operational risks.

Events after the review period

Alma Media announced 4.10.2018 that the Alma Consumer business unit is to begin statutory personnel negotiations pertaining to Aamulehti's editorial employees working at Alma Media Kustannus Oy. The scope of the negotiations is approximately 100 people. Alma Media Kustannus Oy employs approximately 300 persons. According to the preliminary plan, the number of Aamulehti employees may be reduced by a maximum of 17 person-years after the planned actions. The employees of other units of Alma Media Kustannus Oy and Alma Media Suomi Oy who are part of the Alma Consumer business unit and the employees of the printing and distribution company Alma Manu Oy are not in the scope of the negotiations.

Main accounting principles (IFRS)

This interim report has been prepared according to IFRS standards (IAS 34). The interim report applies the same accounting principles and calculation methods as the annual accounts dated 31 December 2017 and the new and revised IFRS standards described in the 2017 financial statements. The interim report does not, however, contain all the information or notes to the accounts included in the annual financial statements. This report should therefore be read in conjunction with the company's financial statements for 2017. This interim report applies the same accounting principles as the consolidated financial statements, with the exception of the following new standards adopted at the start of the financial year:

IFRS 9 Financial Instruments addresses the classification, measurement and derecognition of financial assets and liabilities. It also introduces changes to the rules governing hedge accounting as well as a new impairment model for financial assets. The new rules have been applied by the Group retrospectively starting from 1 January 2018 in such a way as to take advantage of the practical expedients provided by the standard. The comparison figures for 2017 are not adjusted. The most significant impacts of IFRS 9 adoption in the Group are related to the impairment of trade receivables and the classification of financial assets and liabilities, which is based on business models defined by the Group's management.

In recognising expected credit losses, the Group applies the simplified approach defined in IFRS 9, according to which lifetime expected credit losses can be recognised for all trade receivables. For the purposes of determining expected credit losses, trade receivables have been grouped on the basis of shared credit risk characteristics and delinquency in payment. The MEUR 0.2 increase in the loss allowance related to trade receivables reduces the opening balance of retained earnings on 1 January 2018.

Amendment to IFRS 2 *Share-based Payments*. The amendment concerns incentive schemes with net settlement features to cover withholding tax obligations and where the employer has an obligation to withhold tax from the received benefit on the share-based payment. The previous standard requires the entity to divide the payment into an equity-settled component and a cash-settled component. According to the new IFRS 2, compensation costs will be recognised for such payments based on the entire scheme being an equity-settled payment. Compensation costs are recognised based on the number of gross shares awarded, in spite of the employee ultimately only receiving the net shares and the Group paying the portion required to meet the withholding obligations to the tax authority in cash. The withholding paid by the Group to the tax authority is recognised directly in equity.

The Group's 2017 financial statements included a EUR 1.6 million short-term liability relating to the cash-settled component. Due to the amendment, this portion has been adjusted in the opening balance sheet from the liabilities to equity's retained earnings.

IFRS 16 Leases (effective for financial periods beginning on or after 1 January 2019). Under the new standard, all leases except short-term (less than 12-month) contracts and contracts with low value will be recognised as having the right to be used on the balance sheet. Operating leases and finance leases will no longer be differentiated between. The change will move off-balance sheet liabilities to the balance sheet, and thus increase the amount of lease property and debt. Lessor accounting will not be subject to significant changes.

The concepts of agreements processed as off-balance sheet liabilities and the concepts used in IFRS 16 are somewhat different from each other, which is why the number of agreements recognised on the balance sheet may differ from the number of off-balance sheet liabilities. The lease contracts recognised on the balance sheet are mainly from business premises and cars. Lease contracts for IT equipments are considered to be treated as off-balance sheet liabilities as a opposite for treatment according to current IAS 17.

Alma Media has started preparing to implement the standard and assessed the preliminary effects of the standard's implementation. The change does have an impact on the Group's financial statements. The change will also affect the key indicators based on the balance sheet, such as gearing.

IFRS 15 Revenue from Contracts with Customers is a new standard governing the recognition of revenue. Alma Media has adopted the standard on 1 January 2018 using the modified retrospective approach, which means that the cumulative effects arising from the application of the standard have been recognised in retained earnings on 1 January 2018 and comparison figures are not adjusted. In the company's view, the new standard has not had a material effect on the consolidated financial statements.

The key indicators are calculated using the same formulae as applied in the previous annual financial statements. The quarterly percentages of Return on Investment (ROI) and Return on Equity (ROE) have been annualised using the formula $((1 + \text{quarterly return})^4 - 1)$. The percentage of digital business of revenue is calculated as $\text{digital business/revenue} * 100$. The figures in this interim report are independently rounded.

Alternative Performance Measures

Alma Media Corporation additionally uses and presents Alternative Performance Measures to better illustrate the operative development of its business and to improve comparability between reporting periods. The Alternative Performance Measures are reported in addition to IFRS key figures.

The Alternative Performance Measures used by Alma Media Corporation are the following:

Adjusted operating profit (MEUR and % of revenue)

Profit before tax and financial items excluding adjusted items

Adjusted EBITDA

Operating profit excluding depreciation, amortisation, impairment losses and adjusted items

Items adjusting operating profit are income or expense arising from non-recurring or rare events. Gains or losses from the sale or discontinuation of business operations or assets, gains or losses from restructuring business operations as well as impairment losses of goodwill and other assets are recognised by the Group as adjustments. Adjustments are recognised in the profit and loss statement within the corresponding income or expense group.

Interest-bearing net debt (MEUR)

Interest-bearing debt — cash and cash equivalents

The figures in this release are unaudited.

Seasonality

The Group recognises its content revenue from publishing activities as paid. For this reason, content revenues accrue in the income statement fairly evenly during the four quarters of the year. The bulk of newspaper subscription invoicing takes place at the beginning of the year and, therefore, the cash flow from operating activities is the strongest early in the year. This also affects the company's balance sheet position in different quarters.

General statement

This report contains certain statements that are estimates based on the management's best knowledge at the time they were made. For this reason, they contain a certain amount of risk and uncertainty. The estimates may change in the event of significant changes in the general economic conditions.
