C2SAT signs distribution agreement with PT AJN Solusindo

Stockholm, Sweden, 2nd of September 2009 – C2SAT (NGM-Stock Exchange, C2ST). C2SAT and PT AJN Solusindo (AJN), Indonesia have signed a distribution agreement, formalising the already established cooperation between the parties for distribution of C2SAT's products in the region. AJN have to date supplied six (6) C2SAT 2.4m C-band antennas to PT Telekomunikasi Selular (Telkomsel), enabling GSM service on passenger ferries owned by PT Pelayaran Nasional Indonesia (Pelni) operating in the Indonesian archipelago. The partnership with AJN secures C2SAT's presence on the Indonesian market and is in line with C2SAT's strategy to cooperate with established solution providers and system integrators.

About PT AJN Solusindo

PT AJN Solusindo is one of the leading providers of Telecommunications and Information Technology services in Indonesia. AJN was established in 1996 and has gained vast experience in managing and operating its network that spans the entire archipelago of Indonesia. The customers include telecommunication operators, state owned enterprises, banks and companies from the energy sector. AJN has gained strong competence in satellite technology providing communications solutions to more than 1500 sites throughout Indonesia. (www.ajn.co.id)

About C2SAT

C2SAT headquartered in Solna, Sweden, and with a BSO in Shanghai, China, is a Swedish company developing, manufacturing and supplying innovative stabilised VSAT antenna systems used in two-way satellite broadband communication from vessels in motion. The system is protected by a series of global patents. C2SAT Holding AB is listed on the NGM Stock Market Exchange with the ticker C2ST and with Mangold as Market Maker. C2SAT is a registered trademark. (www.C2SAT.com)
