PRESS ANNOUNCEMENT

Seventh conference of Astana EXPO-2017 Future Energy Forum
8-9 August 2017 "Energy For All"

The focus of the seventh conference of the **Astana EXPO-2017 Future Energy Forum** "Energy For All – Challenges of the New Time" is the question of how to secure general access to sustainable and renewable energy for all societies. International cooperation and technology transfer are among the themes to be covered, along with training and education programmes, micro-financing models and policy, and low-carbon NGO initiatives.

Among the speakers are:

- **Prof George Smoot**, Experimental Astrophysicist; Nobel Laureate in Physics (Nobel Prize for his work on the Cosmic Background Explorer satellite)
- **Prof Nebojsa Nakicenovic**, Deputy Director General and Deputy CEO of the International Institute for Applied Systems Analysis (IIASA); Steering Committee Member
- **Prof Dr Herbert Girardet**, International Consultant on Sustainable Urban Development
- **Dr Salomón Chertorivski Woldenberg**, Secretary of Economic Development for Mexico City, Steering Committee Member

The session "Young Leaders' Perceptions of the Challenges of the New Time" hosted by the Global Shapers Community in Astana (World Economic Forum) provides a platform for young leaders who would like to make their contribution to the sustainable development agenda.

Renowned British science journalist **Quentin Cooper** moderates the two-day event, offering key findings and presenting the continual work on the [Astana EXPO-2017 Manifesto of Values and Principles](#).

The event is free of charge; visit www.futureenergyforum.org to register.

A central event of Astana EXPO-2017, the Future Energy Forum sets the stage for international participation and cooperation to discuss energy as the defining issue of our time.
