# SHEALD™ RECOVERY BALM

5.5 pH +/-0.5

PROTECTIVE, SOOTHING AND NOURISHING

## BENEFITS

- Stimulates human keratinocyte differentiation while decreasing inflammation
- Reduces irritation & discomfort with a thick antimicrobial environmental barrier
- Increases collagen synthesis
- Softens & hydrates raw, dry, sensitive skin
- Prevents scabbing & relieves itching or tightness
- Antioxidant rich formula minimizes scars
- Faster healing in all types of wounds
- All skin types

## COMMENTS

The SHEALD™ RECOVERY BALM moisture-rich, reparative formula dramatically boosts and replenishes hydration to dry, sensitive or compromised skin. Antimicrobial and ceramide-rich, this fortifying remedy works overtime to help support the skin's barrier function – while soothing, curative botanicals relieve itching and discomfort of dry, distressed and post-procedure skin. Additionally contains potent antioxidants to aid after-care recovery and is safe and effective to use immediately following ablative and non-ablative procedures.

- Relieves dryness with nourishing, restorative hydration
- Helps soothe and relieve itching and discomfort associated with skin's post-procedure recovery
- Coats and protects skin prior to re-epithelialization

## IMPROVE PATIENT SATISFACTION

In a patient-improvement survey, practices were asked to evaluate SHEALD™ RECOVERY BALM in conjunction with CLEANSING COMPLEX in place of their usual post-procedure products.

The results were:

**41%<sup>LESS</sup> PEELING\***

**85%<sup>LESS</sup> MILIA\***

**54%<sup>MORE RAPID</sup> RE-EPITHELIALIZATION\***

\*When compared to current post procedure regime.

## INDICATIONS

- Post-procedure, ablative and/or non-ablative.
- Benefits post-laser procedures as well as after other surgical wounds such as incisions.
- Dry and chapped skin.

INCLUDED IN  
PROTOCOL & REGIMES

POST-PROCEDURE

EXTREMELY DRY SKIN

### RETAIL

SIZE  
60 g e Net wt. 2 oz.

DOSAGE  
Dime sized amount  
per treatment area  
or as directed

### PROFESSIONAL

SIZE  
120 g e Net wt. 4 oz.

DOSAGE  
Dime sized amount  
per treatment area  
or as directed

# SHEALD™ RECOVERY BALM

5.5 pH +/-0.5

**DESCRIPTION** Medium Viscosity, Light Yellow Opaque Balm

## INGREDIENT FEATURES

KEY INGREDIENTS	DESCRIPTION
<b>CERAMIDE NP, CERAMIDE AP, CERAMIDE EOP, CHOLESTEROL, PHYTOSPHINGOSINE, ZEA MAYS (CORN) KERNEL EXTRACT</b> 5.0%	A group of lipid molecules bioidentical to those synthesized by the stratum corneum. Necessary for healthy barrier function. Antimicrobial. Important for apoptosis and cell signaling of functional epithelium. Includes a botanical source (Zea mays) of Vitamin E. Temporarily assumes and augments skin functions prior to re-epithelialization.
<b>SODIUM HYALURONATE</b> (hyaluronic acid-botanically derived) 10.0%	Humectant; demonstrates hydrophilic properties - attracts and binds up to 1800 times its molecular weight in water.
<b>GLYCERIN</b> 8.0%	Necessary for proper barrier function and protection during the healing process. Gives softness and smoothness to counteract dryness and irritation from procedures.
<b>TOCOPHEROL</b> (vitamin E) 3.0%	This potent antioxidant is the predominant lipophilic vitamin required by skin. Used in large amounts on skin surface as the key antioxidant fortress. Helps modulate inflammation so healing and scarring are optimized.
<b>PANTHENOL</b> (vitamin B5) 1.0%	Required for enzymatic functions within all cells. Facilitates the metabolism of carbohydrates, proteins, and lipids. Increases cellular integrity and efficiency.
<b>AHNFELTIA CONCINNA EXTRACT</b> 2.0%	An intertidal seaweed algae extract from the Rhodophyta group containing proteoglycans, peptides, polypeptides and glycans. Contains high amounts of 4-hydroxyproline, an unusual amino acid found only in collagen, which triggers the epidermis to begin the collagen repair process.
<b>AVENA SATIVA (OAT) KERNEL EXTRACT</b> 3.0%	Biomodulator of inflammatory processes, it soothes and calms irritation and redness. Fortifies epithelial structural elements.
<b>PIPER METHYSTICUM LEAF/ROOT/STEM EXTRACT</b> (kava kava) 2.0%	Controls pain due to local anesthetic effects and limits itch caused by nerve root stimulation during the healing process.

## INGREDIENTS

Water/Aqua/Eau, Sodium Hyaluronate, Glycerin, C12-15 Pareth-3 Benzoate, Petrolatum, Tocopherol, Cetearyl Alcohol, Cetareth-20, Glyceryl Stearate, PEG-100 Stearate, Zea Mays (Corn) Kernel Extract, Panthenol, Sorbitan Stearate, Ahnfeltia Concinna Extract, Ceramide 3, Sodium Lauroyl Lactylate, Ceramide 6 II, Ceramide 1, Cholesterol, Phytosphingosine, PEG-8, Avena Sativa (Oat) Kernel Extract, PEG-8/SMDI Copolymer, Piper Methysticum Leaf/Root/Stem Extract, Butylene Glycol, Polysorbate 20, Xanthan Gum, Carbomer, Retinyl Palmitate, Triethanolamine, Caprylyl Glycol, 1,2-Hexanediol, Disodium EDTA.

**CAUTIONS** For external use only. Avoid eye contact. Store in a cool place.
