Concoction

The title *Concoction* is chosen because it embraces this year's mix of artists and artist run spaces and their various perspectives and practices.

Jørgen Carlo Larsen

Danish artist Jørgen Carlo Larsen will set the frame in our 1000 m2 exhibition space by creating a huge art installation from simple natural materials. The 23 invited art spaces will activate this piece in many different ways through their participation.

More about Alt_Cph13

As Copenhagen's independent and international art fair, we wish to offer our guests an inside look into the independent contemporary art scene as it unfolds right now. Also, the purpose is to create a meeting place for artists and to give them a unique opportunity to gather around their practices. Furthermore, Alt_Cph proudly presents an extensive programme of performances, debates and music – and Saturday night everyone is welcome to join the Alt_Cph Party, starting at 8 pm.
