

PROSTAFF 7 Laser Rangefinder

Waterproof Prostaff 7 laser rangefinder with distant target priority mode is ideal for quick and simple measurements in wooded areas. Its bright LED illumination offers easy viewing of the display in dark conditions. The compact and lightweight rangefinder is an excellent choice for professional hunters as it hardly adds to the weight of rifle, binoculars and other hunting equipment.

PROSTAFF 7

Key features:

- 4.5-550m (5-600yds) measurement range
- Target priority switch system offers first target and distant target modes
- Easy viewing of LED display due to high light transmission level
- Bright field of view with large ocular
- Long eye relief
