Press Release

Ulrika Unell, President Orbital Launch & Rocket Test to leave SSC

Stockholm, Sweden – 21 November 2025

Ulrika Unell, President Orbital Launch & Rocket Test Division and member of the Executive Committee, has decided to leave SSC to take on a new position outside the company.

Ulrika, who has held the position since September 2024, will leave SSC at the end of December 2025. A recruitment process to find her successor will be initiated.

“We thank Ulrika for her excellent contributions to the development of our OLRT Division – driving progress, sales, and innovation to strengthen our satellite launch and rocket test capabilities. I want to sincerely thank Ulrika for her leadership and commitment and wish her all the best in the future,” says Charlotta Sund, President and CEO of SSC.

About SSC: Swedish Space Corporation (SSC) is a leading global provider of advanced space services, with more than 50 years of experience. We help space organizations, research institutes, commercial and institutional actors from all over the world to get access to space. With local presence on all continents and about 700 committed employees, we offer specialist expertise in satellite communications and satellite control services, spacecraft operations, rocket and balloon systems, launch services and flight test services, as well as engineering, operations and consultancy services for space missions. We enable successful space projects within Earth observation, telecommunications, security, meteorology, navigation and positioning, scientific research and other applications. Among our strongest assets are Esrange Space Center in northern Sweden, set out to be a leading provider of satellite launch services from mainland Europe, as well as one of the world's largest commercial ground station networks for satellite communications.
