Press Release

Linda Lyckman, SvP and Head of U.S. Growth to leave SSC Space

Stockholm, Sweden – 24 February 2026

Linda Lyckman, SvP and Head of U.S. Growth, and member of the Executive Committee, will leave SSC Space to pursue new opportunities outside the company.

Most recently, Linda has led the company U.S. Growth strategic initiative in close collaboration with CEO Charlotta Sund and the Executive Committee.

Linda has been with SSC Space since 2019 and has held her current position since January 2025.

“We thank Linda for her excellent contributions, strong commitment, shaping our U.S. growth ambition and strategic direction, and in previous roles contributing to the broader commercial development of the company. I wish her every success and all the best for the future”, says Charlotta Sund, President and CEO of SSC Space.

About SSC Space: SSC Space (formerly known as Swedish Space Corporation) is a leading global provider of advanced space services, with more than 50 years of experience. We help space organizations, research institutes, commercial and institutional actors from all over the world to get access to space. With local presence on all continents and about 750 committed employees, we offer specialist expertise in satellite communications and satellite control services, spacecraft operations, rocket and balloon systems, launch services and flight test services, as well as engineering, operations and consultancy services for space missions. We enable successful space projects within Earth observation, telecommunications, security, meteorology, navigation and positioning, scientific research and other applications. Among our strongest assets are Erange Space Center in northern Sweden, set out to be a leading provider of satellite launch services from mainland Europe, as well as one of the world’s largest commercial ground station networks for satellite communications.
