

Press release

# Robert Burning, CFO to leave SSC Space

Stockholm, April 13, 2026

**Robert Burning, CFO and member of the Executive Committee, has decided to leave SSC Space to take on a new position outside the company.**

Robert, who has held the position since the beginning of 2024, will leave SSC Space at the latest on September 30, 2026. A recruitment process to find his successor has been initiated.

“We thank Robert for his strong leadership in driving efficiency, profitable growth, and disciplined execution, while also working purposefully to develop and secure our financing. I want to thank Robert for his dedicated commitment and wish him every success in his next role,” says Charlotta Sund, President and CEO of SSC Space.

**About SSC Space:** SSC Space (formerly Swedish Space Corporation) is a leading global provider of advanced space services, with more than 50 years of experience. We help space organizations, research institutes, commercial and institutional actors from all over the world to get access to space. With local presence on all continents and about 750 committed employees, we offer specialist expertise in satellite communications and satellite control services, spacecraft operations, rocket and balloon systems, launch services and flight test services, as well as engineering, operations and consultancy services for space missions. We enable successful space projects within Earth observation, telecommunications, security, meteorology, navigation and positioning, scientific research and other applications. Among our strongest assets are Espace Space Center in northern Sweden, set out to be a leading provider of satellite launch services from mainland Europe, as well as one of the world's largest commercial ground station networks for satellite communications.
