## GSF's two year warranty on power steering pumps

GSF Car Parts are now offering two year's warranty on the full range of ELSTOCK remanufactured power steering pumps, steering racks and electric steering columns.

Established in 1979, Denmark-based ELSTOCK forms part of BORG Automotive, one of Europe's leading automotive remanufacturing groups. Their European pump programme, comprising more than 300 part numbers, covers all of the most popular cars and LCVs. It's exclusively available in the UK through GSF Car Parts, at competitive prices.

ELSTOCK's range of power steering pumps are remanufactured at their own ISO 9001:2008 and ISO14001:2001 certified UK facility. As part of the remanufacturing process, all units are fully stripped; individual components are then cleaned, examined and tested. Where necessary, new parts are fitted before the pumps are reassembled, and individually tested to match OE specifications.

"Each and every ELSTOCK pump is rigorously tested as part of a comprehensive remanufacturing process," said Jonny West, Managing Director of GSF Car Parts. "This emphasis on quality means we're pleased to offer the two year warranty to customers with absolute confidence."

For more information about ELSTOCK power steering pumps, racks or steering columns, please contact your local branch of GSF Car Parts.

**About GSF Car Parts**

GSF Car Parts has a successful trading history spanning over 30 years.

Today's business, brought together in April 2000 by the German & Swedish Management Team, has its origins in a number of long standing expert car parts specialists such as Vee Wee, Autocavan, Andyspares, and URO Automotive.

Since the formation of GSF Car Parts in 2000, the company has developed a parts and distribution portfolio to create the UK's largest independent parts supplier. Today, GSF Car Parts employs over 1,000 people serving the UK and Ireland through over 70 stores and over 400 GSF delivery vans, managed from centrally-located headquarters in Birmingham

GSF's fast-growing retail business supplies components and consumables direct to customers' doors and through 'click and collect' from a sophisticated online catalogue and e-commerce site. In many cases, customers can save up to 50% off main dealer retail prices.
