### About Micronic Mydata AB

Micronic Mydata AB is a Swedish high-tech company engaged in the development, manufacture and marketing of production equipment to the electronics industry. The products consist of pattern generators including mask writers and direct writers for the production of photomasks and substrates as well as advanced surface mount technology (SMT) equipment. The pattern generators are used by the world's leading electronics companies in the manufacture of semiconductor circuits, for advanced electronic packaging and displays used in PC tablets, smart phones, TVs and computers. The SMT equipment is used for surface mounting of electronic components and stencil free jetting of solder paste. The SMT equipment is used, among others, by large and small manufacturers of electronics in aerospace, aviation and telecom. Micronic Mydata headquarters is located in Täby, north of Stockholm and the Group has subsidiaries in China, France, Germany Japan, Singapore, South Korea, Taiwan, the Netherlands, United Kingdom and the United States.
