Oslo, 28 June 2016

Dyrlegene på Lilleaker joins AniCura

AniCura, one of Europe's leading providers of high-quality veterinary care for companion animals, acquires Dyrlegene på Lilleaker. The partnership with AniCura allows the clinic to enter into the next phase of its exciting development.

Dyrlegene på Lilleaker is a well-known animal clinic in the west of Oslo. The clinic, which was founded in 2002, is located in unique cultural heritage premises. The clinic's team comprises four veterinarians, two veterinary nurses and three assistants.

Dyrlegene på Lilleaker is certified by the Norwegian Veterinary Association, a quality stamp achieved by less than 50 animal clinics in Norway. The clinic provides professional veterinary medicine for small animals in a number of different areas such as surgical procedures, cardiology, ophthalmology, dermatology and dental care. Members of staff all undergo continuous training both in Norway and abroad.

Facilities with a total of 300 square metres are fitted with modern surgical facilities, outpatient receptions and an in-house laboratory. Every year, Dyrlegene på Lilleaker attends to ca 4 500 patients from the Oslo Bærum area.

Dyrlegene på Lilleaker believes working together with AniCura is a great opportunity for the veterinary clinic and its staff to take the next step forward in their veterinary development.

– We have long enjoyed close contacts with AniCura Dyresykehus Oslo, to which we refer patients in need of specific specialist skills. Finding a partner we feel comfortable with was important for us. Becoming part of AniCura means we can look forward to a rewarding exchange in terms of both know how and business operations. We want to be part of AniCura's established network now that we are gearing up to meet the future, says Torill Heggenes, Dyrlegene på Lilleaker's Practice Manager.

– We warmly welcome Dyrlegene på Lilleaker to our family. They have always focused on high levels of skill and service, and we are looking forward to boosting our joint offer to pet owners through our collaboration, says Øyvind Johnsen Brøgger, Business Area Manager AniCura Norway.

**About AniCura**

AniCura is a family of well-known animal hospitals and clinics specialised in veterinary care for companion animals. Born out of the idea that sharing resources creates opportunities for better veterinary care, the company was established in 2011 as the first merger of companion animal hospitals in the Nordic region. Today, AniCura is a role model within specialised veterinary care and a valued partner for pet owners and referring veterinarians across Europe.

The company offers a wide range of high quality medical services covering preventive and basic health care as well as advanced diagnostics, internal medicine, intensive care, surgery and orthopaedics. AniCura also provides rehabilitation, physiotherapy and dietary advice and offers selected pet food and care products.

AniCura provides modern, high-quality veterinary care for pets at 130 European locations and creates peace of mind for pet owners through excellent access and patient safety. Every year, AniCura's 2 500 passionate veterinary professionals attend to more than one million companion animal patients. AniCura is a trusted training and referral body.
