Tierklinik Korneuburg in Austria joins AniCura

AniCura, one of Europe's leading providers of high-quality veterinary care for companion animals, acquires Tierklinik Korneuburg north of Vienna. The partnership broadens AniCura's offering of advanced veterinary care in Austria, while providing Tierklinik Korneuburg with a strong platform for continued professional development, scientific knowledge exchange and veterinary cooperation.

Tierklinik Korneuburg was founded in 1989 by Dr. Karl Grohmann. In 1990, Dr. Otto Fischer joined and in 2010, Dr. Thomas Wiebogen stepped in as a third partner. The clinic attends approximately 10 000 patients each year, of which more than a fifth are referrals. The team comprises approximately 16 members of staff of which six are veterinarians.

The clinic offers considerable expertise in several areas, with two Veterinary Specialists (Fachtierärzte) who are also senior lecturers at the Veterinary University of Vienna. Specialist competence is provided in dermatology, oncology, ophthalmology, surgery, orthopaedics, traditional Chinese veterinary medicine and a specialized "Pain Ambulance". The clinic facilities were originally built in 2004 and have been carefully renovated in the past years to include surgery theatres, diagnostic imaging, laboratory, nursing wards and a dedicated area for chemotherapeutic treatments.

– We are really happy about partnering with AniCura which means gaining a strong and stable partner, allowing for continuity in our operations. AniCura stands for the principles we ourselves value, such as a strong focus on high quality, an ambitious scientific agenda and of course making sure that clients and animals are given excellent service, says Dr. Karl Grohmann, founder of Tierklinik Korneuburg.

– We are pleased to welcome the team at Tierklinik Korneuburg to our veterinary family. Together we will continue to develop high quality specialised veterinary care of the future, says Peter Dahlberg, CEO AniCura.

About AniCura

AniCura is a family of well-known animal hospitals and clinics specialised in veterinary care for companion animals. Born out of the idea that sharing resources creates opportunities for better veterinary care, the company was established in 2011 as the first merger of companion animal hospitals in the Nordic region. Today, AniCura is a role model within specialised veterinary care and a valued partner for pet owners and referring veterinarians across Europe.

The company offers a wide range of high quality medical services covering preventive and basic health care as well as advanced diagnostics, internal medicine, intensive care, surgery and orthopaedics. AniCura also provides rehabilitation, physiotherapy and dietary advice and offers selected pet food and care products.

AniCura provides modern, high-quality veterinary care for pets at 130 European locations and creates peace of mind for pet owners through excellent access and patient safety. Every year, AniCura's 2 500 passionate veterinary professionals attend to more than one million companion animal patients. AniCura is a trusted training and referral body.
