## **Danish Hjørring Dyrehospital joins AniCura**

*AniCura, a European leader in high quality veterinary care for companion animals, acquires Hjørring Animal Hospital. The partnership provides great opportunities for cooperation and development within veterinary medicine for the benefit of pet owners in North Jutland.*

Hjørring Dyrehospital is a well-known animal hospital with a history stretching back more than 80 years. In 1990, the new Hjørring Animal Hospital was built and since 1998, it has an exclusive focus on companion animals. The team comprises twelve veterinary professionals, of which three are veterinarians.

In addition to general care and treatment, Hjørring Animal Hospital offers advanced veterinary care services in joint surgery, internal medicine, dentistry and physiotherapy. Hospital staff undergoes continual training and education, both in Denmark and abroad.

Hjørring Animal Hospital is located centrally in Hjørring and has good access to the surrounding area. The hospital enjoys modern facilities, containing well-equipped rooms for surgery, dentistry and polyclinic care.

Veterinary surgeon Flemming Myrup joined Hjørring in 1989. In his role as Practice Manager Flemming has developed the hospital to a modern general practice.

“AniCura’s focus on development of veterinary medicine provides us with an excellent opportunity to gain new knowledge and thus provide our patients better treatment. Although we are able to offer our patients a relatively wide range of care and treatment already today, we recognise our customers’ increasing needs for more specialised veterinary care, and to meet these demands we need a professional partner. Through AniCura, we are able to invest in better equipment and knowledge,” says Flemming Myrup.

“We are pleased to welcome Hjørring Animal Hospital to AniCura. We look forward to working together in shaping the future of veterinary medicine,” says Jonas Maltha, Business Area manager AniCura Denmark.

## **About AniCura**

AniCura is a European leader in high quality specialised veterinary care for companion animals. The company grew out of the idea that shared resources create possibilities for better veterinary care. In 2011 AniCura was established as the first merger of companion animal hospitals in the Nordic region. Today, AniCura is a role model within specialised veterinary care and a valued partner for pet owners and referring veterinarians across Europe.

AniCura offers a full range of medical and surgical services. This covers everything from preventive and basic health care to advanced diagnostics, intensive care, surgery and orthopaedics. AniCura also provides rehabilitation, physiotherapy and dietary advice and offers selected animal foods and care products.

AniCura comprises many of Europe's most prominent companion animal hospitals and clinics, offering modern, high quality specialised veterinary care for pets and creating peace of mind through excellent access and patient safety. Every year, AniCura's 2 000 members of staff attend to more than a million patients. AniCura is a leading training and referral body.
