
Dometic's Board of Directors' proposal regarding dividend

Recent geopolitical developments have increased economic uncertainty and volatility, which may have a negative impact on consumer sentiment and the demand for Dometic's products. Historically, such periods of uncertainty have had a negative impact on the industry, and the Company is beginning to see indications that demand and trading conditions are somewhat weaker than anticipated.

In light of this, the Board of Directors considers it proactive and prudent to withdraw the previously communicated dividend proposal in order to maintain financial flexibility. Accordingly, the Board of Directors proposes to the Annual Shareholders' Meeting 2026 that no dividend is paid for the financial year 2025.

The Board of Directors will consider convening an Extraordinary Shareholders' Meeting later in the year to reinstate all or part of the previously proposed dividend.
