

Press release, Stockholm November 7, 2017

Nepa Insight Oy appointed "Achiever 2017"

Nepa Insight Oy has been appointed "Achiever 2017" by Finland's renowned business newspaper Kauppalehti. This happens just after Nepa Sweden receives the award "DI Gasell 2017", given to Sweden's fastest growing companies – for the 6th time in the last 7 years.

The Achiever certificate was granted Nepa Insight Oy by Balance Consulting, the analysis unit of Kauppalehti, for its financial performance. The certificate also indicates the efficiency and business competencies of the management and the organization.

Companies are assessed on 6 different parameters. Nepa Insight Oy is in the top 1 % in growth and top 12 % in profitability compared to companies in all industries in the entire country. Only about 4 % of Finnish companies manage to meet the tough criteria and get Achiever status.

"Placing ourselves in the industry's top layer is a confirmation of our hard work here in Finland. There is a great interest in our Consumer Science Platform and we love to help our customers become more competitive by continuously delivering actionable insights. The Achiever certificate supports our growth strategy," says Mikael Brunberg, acting Managing Director of Nepa Insight Oy.

Nepa is a pioneer in the field of Consumer Science. We help create eminent companies with a data-driven and consumer-oriented decision making at all levels by delivering financially assigned insights to catalyze change. Decisions on change and improvement can be made on a daily basis, right where our clients meet their customers – not only at a central level in the company.

Nepa AB (publ) has been listed on Nasdaq First North since April 26, 2016. Certified Adviser is Erik Penser Bank.
