

Press release, September 23th 2013

Nepa Global awarded Gazelle 2013 third year running

Brand Analytics and Statistical company, Nepa Global has again been awarded the Gazelle 2013 Honour for the third year running in recognition as one of Sweden's fastest growing companies by Dagens Industri, the largest business magazine in Sweden.

The Gazelle Award, presented by the Swedish financial magazine is awarded to companies that “are champions in both profitable growth and creating new jobs.” Fewer than 0.5 percent of all companies in Sweden are appointed annually to Gazelle by Dagens Industri (DI).

“It is an amazing confirmation for our fantastic team at Nepa and a proof that our offering of smart, actionable and efficient market research is appreciated by the market”, says Fredrik Östgren, CEO of Nepa.

Many thanks to all our clients, partners and friends who have supported us during this year!

About Nepa

Nepa is a creative company that provides innovative market research solutions globally. We strive to deliver insights from different perspectives and we focus on providing actionable results. Our ambition is to enable our customers to make better business decisions, and we do this by being committed to innovation, cost-efficiency and customer insight across our whole portfolio.

Nepa, headquartered in Stockholm, Sweden, builds research platforms in over 40 markets now. In the last three years we have opened new offices in London, Mumbai, Shanghai, Dusseldorf, Singapore, Copenhagen and Helsinki as part of our rapid expansion drive. We provide media owners, consultants and global advertisers with the insight they need to make the decisions necessary to reach success. Nepa – Innovator in Marketing Research. www.nepaglobal.com
