SaltX Technology Holding AB (publ) completes a directed new share issue of B-shares, raising SEK 60 million

The Board of Directors of SaltX Technology Holding AB (publ) ("SaltX" or the "Company") has, in accordance with the Company's press release earlier today, resolved on a new share issue of 15 million B-shares, corresponding to SEK 60 million (the "Directed New Share Issue"). The subscription price in the Directed New Share Issue was set to SEK 4.00 per share. The proceeds from the Directed New Share Issue will primarily be used to finance further product development.

The Board of Directors of SaltX has, based on the authorization given by the Annual General Meeting on April 22, 2021, and as communicated in the Company's press release earlier today, resolved on and carried out a directed new share issue of 15 million B-shares to institutional investors.

The subscription price in the Directed New Share Issue was set to SEK 4.00 and has been determined through a so-called bookbuilding procedure carried out by the Company's financial advisor Pareto Securities AB ("Pareto Securities"), why it is the Board of Directors' assessment that the subscription price is in accordance with market conditions. The subscription price in the Directed New Share Issue corresponds to a discount of approximately 11.1 percent compared to the closing price on Nasdaq First North Premier Growth Market on May 17, 2021. Through the Directed New Share Issue, SaltX will receive SEK 60 million before deduction of transaction costs.

The rationale for carrying out the Directed New Share Issue and for the deviation from the shareholders' preferential rights is to secure financing of the Company's strategy and progress, including product development, in a time- and cost-effective manner.

The Directed New Share Issue entails a dilution of approximately 14.6 percent of the number of shares and votes in the Company. Through the Directed New Share Issue, the number of outstanding shares and votes will increase by 15,000,000, from 87,936,984 to 102,936,984. The share capital will increase by SEK 1,200,000.00, from SEK 7,034,958.72 to SEK 8,234,958.72

In connection with the Directed New Share Issue, the Company has undertaken, with customary exceptions, not to issue additional shares for a period of 360 calendar days after the announcement of the outcome of the Directed New Share Issue. Board members and senior executives, including the CEO and the CFO, have undertaken not to sell any shares in SaltX for a period of 90 calendar days after the announcement of the outcome of the Directed New Share Issue, with customary exceptions.

Information to distributors

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended (“**MiFID II**”); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the “**MiFID II Product Governance Requirements**”), and disclaiming all and any liability, whether arising in tort, contract or

otherwise, which any “manufacturer” (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares in SaltX have been subject to a product approval process, which has determined that such shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the “**Target Market Assessment**”). Notwithstanding the Target Market Assessment, Distributors should note that: the price of the shares in SaltX may decline and investors could lose all or part of their investment; the shares in SaltX offer no guaranteed income and no capital protection; and an investment in the shares in SaltX is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Directed New Share Issue. Furthermore, it is noted that, notwithstanding the Target Market Assessment, Pareto Securities will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares in SaltX.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares in SaltX and determining appropriate distribution channels.
