Organic sales growth of 12 per cent and significantly improved operating profit

The positive momentum we have created with the right products at the right price, good product availability and good customer service has resulted in a strong third quarter in the financial year 2023/24. Sales increased across all prioritised product categories and in all markets. Overall, we achieved an organic sales increase of 12 per cent and operating profit improved to 422 MSEK compared with 215 MSEK the previous year. The operating margin for the quarter thereby amounted to 12.4 per cent (7.3).

We continue to work according to our plan to create customer and shareholder value through sustainable and profitable growth. The fourth quarter of the year has started well with an organic sales increase of 19 per cent in February. The sales increase comes from growth in all three markets and from all prioritised product categories. We have continued to renew our assortment in February, which also means we have phased out older products at a higher pace.

Our growth initiatives are delivering results

The external environment remains challenging in many ways, but the organisation has shown great determination to succeed in our three major focus areas for growth:

- A relevant assortment all year around
- A growing and profitable online business
- Expanding the store network

We clearly see that the many new products generate customer traffic and sales both in stores and online. By developing the range with more products that make home improvement easier and more fun, it also becomes clearer to customers what they can find at Clas Ohlson. Customers come to us to solve everyday problems and they appreciate both the products and the service they receive. And the number of customers is growing. We now have 5.4 million members in the Club Clas loyalty programme - about 25 per cent of all residents in our three markets - which is an increase of eight per cent compared with the previous year. The membership increase comes largely from younger customers, which is also an important piece of the puzzle in the continued growth journey.

New targets for the store expansion

Sales in comparable stores increased by 12 per cent in the quarter and the new stores we opened have been well received by customers. In Q3 we opened three new stores and in the last few days alone we have opened two rebuilt stores and closed one. The development of the store network will continue with more store openings in the last months of the year, and we look forward to continuing the store expansion also in 2024/25. We already have eight store contracts signed for the next financial year and, as in the current year, we are aiming to open around ten new stores net in 2024/25. At the same time as planning for more stores, we also see opportunities to rebuild and modernise existing stores to improve the conditions for continued sales growth.

A growing online business

Our online business also performed well in the quarter in an otherwise relatively weak e-commerce market. Our model in which online sales is closely linked to the store network is appreciated by customers and, with growth of 19 per cent in the quarter, e-com continues to account for a significant portion of total growth. Including sales from Spares Europe, which was acquired in November and consolidated into the Clas Ohlson Group as of the third quarter, approximately 17 per cent of the Group's total sales come

from e-commerce. We now look forward with confidence to the opportunities provided by a leading company in spare parts and accessories for electronic products as part of Clas Ohlson.

A quality-labelled sustainability work

Extending the life of electronic products also fits well with the work we are doing to build a more sustainable business model. Spare parts play an important role and we have processes in place to ensure that the products we sell are of good quality and last a long time. Together with our suppliers, we are also improving production methods and material choices so that products can be more easily reused and recycled. A sign that we are continuing to take steps in the right direction is that we were placed in joint seventh place among 130 evaluated Swedish listed companies in the latest *Hållbara bolag* (Eng: Sustainable Companies) report. *Hållbara bolag* is a study of the sustainability work of Swedish companies conducted annually by Lund University in collaboration with the newspapers Dagens Industri and Aktuell Hållbarhet.

Focus on things we can influence ourselves

Right now, the organisation is fully focused on ending the financial year in the best possible way. As usual, we are putting all our energy into things we can influence ourselves, both in terms of cost control and offering customers a really good shopping experience. This is particularly important in a market climate where customers have a slightly more positive view of the future, but where much uncertainty remains. Consumers continue to be pressured by cost inflation and high mortgage rates, while rent indexation and new disruptions in the logistics chain after the unrest in the Red Sea are some examples of challenges that we need to address. Strengthened by the recent developments and with a Clas Ohlson team that always wants to be one step ahead, I am convinced that we will succeed.

Looking forward to seeing you in the stores and online!

CCI is an indicator calculated as an average of consumer assessments of the following four components; 1) household's financial situation now and 2) expected financial situation for the next 12 months, 3) expected economic situation for the country for the next 12 months and 4) expected major purchases over the next 12 months. The quarterly value in the diagram above is a weighted average of the monthly outcomes during the quarter. The CCI remains at relatively low levels, but since Q2 2022/23 a gradual recovery has taken place in all sales markets.

Third quarter

The gross margin increased by 0.2 percentage points to 38.4 per cent (38.2). The gross margin was positively affected by reduced sourcing costs and effects related to currency hedging (NOK). This was offset by a weaker Swedish krona in relation to the purchasing currency (USD), effects from product and price mix, weaker sales currency (NOK) and lower gross margin for the acquired Spares Group.

The share of selling expenses declined by 1.2 percentage points to 24.5 per cent (25.7). The share declined mainly as a result of the higher sales and cost savings linked to previously communicated activities in 2022/23 and in the first quarter of the current year.

Administrative expenses amounted to -50 MSEK (-51).

Operating profit totalled 422 MSEK (215). Adjusted operating profit totalled 425 MSEK (334). Operating margin was 12.4 per cent (7.3). Profit after financial items totalled 407 MSEK (200). Depreciation for the quarter amounted to 182 MSEK (194).

Spot exchange rates for key currencies averaged 0.98 for NOK and 10.45 for USD, compared with 1.05 and 10.47, respectively, in the year-earlier period. Currency hedging was undertaken in USD and NOK. Currency hedging that fell due during the quarter had a positive impact of 12 MSEK (NOK) on earnings and a negative impact on inventory value through an increase of 2 MSEK (USD). The company's policy is to hedge 50 per cent of the expected flow in each currency continuously, with three- to nine-month maturities.

Nine months

The gross margin increased by 2.0 percentage points to 39.2 per cent (37.2). The gross margin was positively affected by reduced sourcing costs, which during the period also included lower inventory management costs, an improved product and price mix and effects related to currency hedging (NOK). This was largely offset by a weaker Swedish krona in relation to the purchasing currency (USD) and weaker sales currency (NOK).

The share of selling expenses declined by 1.8 percentage points to 27.0 per cent (28.8). The share declined mainly as a result of higher sales and cost savings linked to previously communicated activities in 2022/23 and in the first quarter of the current year.

Administrative expenses amounted to -147 MSEK (-145).

Operating profit, MSEK

Operating margin rolling 12 months, %

Operating profit totalled 651 MSEK (312). Adjusted operating profit totalled 856 MSEK (466). Operating margin was 8.1 per cent (4.3). Profit after financial items totalled 602 MSEK (265). Depreciation, amortisation and write-down for the period amounted to 701 MSEK (614).

Spot exchange rates for key currencies averaged 1.00 for NOK and 10.67 for USD compared with 1.05 and 10.46, respectively, in the year-earlier period. Currency hedging was undertaken in USD and NOK. Currency hedging that fell due during the period had a positive impact of 23 MSEK (NOK) on earnings and a positive impact on inventory value through a decrease of 15 MSEK (USD). The company's policy is to hedge 50 per cent of the expected flow in each currency continuously, with three- to nine-month maturities.

Investments

Investments during the nine-month period amounted to 499 MSEK (101). Of this amount, investments in new or refurbished stores accounted for 36 MSEK (34). Investments in IT systems for the period amounted to 1 MSEK (36). During the third quarter, Spares Group was acquired, see additional information on page 14. The initial purchase price for 91,4% of the shares in Spares amounted to 431 MSEK. The shares in Mathem were measured at fair value amounting to 6 MSEK, unchanged during the quarter and a decrease of 3 MSEK during the nine-month period.

During the nine-month period, measures have been taken to rationalise the company's IT system in order to better reflect the company's strategy and simplified working methods. This has resulted in write-downs amounting to 152 MSEK.

Financing and liquidity

Cash flow from operating activities during the nine-month period totalled 1,597 MSEK (947). Cash flow for the period, after investing and financing activities, was 331 MSEK (-377). The resolved dividend of 1.50 SEK per share was paid out during the nine-month period, totalling 95 MSEK.

The average 12-month value of inventories was 2,304 MSEK (2,394). Over a rolling 12-month period, the stock turnover rate at the distribution centre was 5.6 times (4.5).

At the end of the quarter, the inventory value was 2,303 MSEK (2,125). During the current financial year, the inventory value was impacted by external factors such as lower costs for incoming transports, which was partially offset by increased costs for purchase of products, partly related to a weaker Swedish krona in relation to the purchasing currency (USD). The inventory value was also impacted by the acquisition of Spares Group.

The Group's net debt at the end of the period, meaning interest-bearing liabilities less cash and cash equivalents, amounted to 1,362 MSEK (1,626). Excluding the effect of IFRS 16, the Group's net cash position was 475 MSEK (net debt -70). Excluding the effect of IFRS 16, net debt in relation to EBITDA was -0.5 times (-0.1), which is in accordance with the company's financial framework. Credits granted and loan commitments amounted to 1,110 MSEK, of which 0 MSEK had been utilized. The company's financial position remains strong. The equity/assets ratio was 30 per cent (29). In connection with the acquisition of Spares Europe AB on November 8th, credits granted and loan commitments were expanded by 510 MSEK, to a total of 1,110 MSEK.

Employees

The number of employees in the Group was approximately 4,900. Recalculated to average full-time equivalents (FTEs) in the quarter, this corresponds to an average of 3,054 (3,105).

* From operating activities

Seasonal fluctuations

Clas Ohlson's market and operations are influenced by consumer purchasing behaviour. The company's product range is particularly well suited to Christmas preparations and Christmas shopping, which means that the third quarter (November-January) is generally the strongest quarter of the financial year. This is followed by the second and first quarters and, finally, the fourth quarter, which is the weakest in terms of sales and profit.

Parent company

Parent Company sales in the nine-month period amounted to 6,534 MSEK (5,944) and profit after financial items totalled 448 MSEK (120). Investments for the period amounted to 482 MSEK (70). Contingent liabilities for the Parent Company amounted to 165 MSEK (172).

Acquisition of Spares Europe AB

Clas Ohlson has acquired 91.4% of the shares in Spares Europe AB, a leading company in spare parts and accessories for electronic products and batteries. The acquisition strengthens Clas Ohlson's core business and creates new growth opportunities within a growing market segment. Spares is consolidated in the Clas Ohlson Group from the third quarter 2023/24. See further information on page 14.

Events after the end of the reporting period

Risks and uncertainties

To develop an attractive and relevant customer offering and to ensure our competitiveness, we must understand how our business environment is changing. The operations that Clas Ohlson conduct entail risks that could negatively impact the Group to varying extents. These risks are divided into strategic, operational and financial risks. When managed correctly, risks may lead to opportunities and add value to the business.

We work continuously to update the Group's risk situation through a systematic process in which risks are identified, evaluated, managed and reported. Priority is assigned to the risks assessed as having the greatest negative impact in terms of probability and conceivable effects on operations. This work contributes to the strategic and operational management of the company.

Risks of a strategic character primarily comprise risks associated with changes in the business environment and increased competition, shifts in technology and in customers' purchasing habits, market positioning, and product range and offering as well as growth. Operational risks are mainly risks associated with purchasing and products, sustainability, IT systems, logistics, key individuals, leases, shrinkage and regulatory risks, while risks of a financial nature consist primarily of risks associated with changes in the economy, currency exposure, transport costs, raw material prices and salary inflation.

For a detailed description of the Group's significant risks and risk management, refer to pages 20-24 of the 2022/23 Annual Report. Risks and uncertainties associated with the developments in Ukraine, the effects of these and potential impact on the Group's operations and earnings are routinely evaluated and monitored. The same applies to the macro situation at large with increased inflation, higher interest-rates, and more.

Nomination Committee and the 2024 Annual General Meeting

The members of the Nomination Committee were appointed based on the ownership structure at 30 September 2023. Malin Persson, nominated by the Haid owner family, is Chairman of the Nomination Committee. The other members are Kenneth Bengtsson, Chairman of the Board of Clas Ohlson AB, Johan Ståhl, nominated by the Tidstrand owner family, Fredrik Ahlin, nominated by If Skadeförsäkring AB and Richard Torgerson, nominated by Nordea Funds.

The Annual General Meeting will be held on 6 September 2024. For more information, visit https://about.clasohlson.com/en/corporate-governance/nomination-committee/

Acquired compaines	Country	Date
Spares Europe AB	Sweden	8 November 2023
Spares Nordic AB	Sweden	8 November 2023
Batteriexperten Europe AB	Sweden	8 November 2023
Zandgroup AB	Sweden	8 November 2023

Clas Ohlson AB acquired 91.4% of the shares in Spares Europe AB with closing date of 8 November 2023. Through the agreement and a so-called call and put option with non-controlling shareholders (members of Spares Europe AB's management), the remaining 8.6% of the shares have also been secured. The option grants Clas Ohlson the right to acquire the remaining shares after financial year 2025/26. Spares Europe AB owns 100% of the shares in Spares Nordic AB, Batteriexperten Europe AB and Zandgroup AB.

Spares Group sells spare parts and accessories for electronic products and batteries. Spares includes sales channels such as Teknikdelar and Batteriexperten. Main markets are Sweden, Norway, Denmark and Finland, the group is also present in Germany and the Netherlands. The group also distributes spare parts and other products to smaller business customers in Europe via Spares and Zand. The business has around 75 employees, with its headquarters and distribution center in Malmö. Private label sales, mainly through SiGN and Nextbatt, amounts to around 20% of total sales and are growing. Spares Group has been consolidated into the Clas Ohlson Group as of the third quarter 2023/24.

The purchase price corresponds to a valuation of approximately 500 MSEK on a cash and debt free basis (EV). The initial purchase price for 91.4% of the shares in Spares corresponds to 431 MSEK. Since both Clas Ohlson and the respective non-controlling shareholders can invoke a purchase or a sale through a call and put option, a liability to the management amounting to 40 MSEK has been recognised. This means that Clas Ohlson does not report any non-controlling interests in equity. The acquisition price for 100% of the shares has been calculated at 471 MSEK. Furthermore, there is a maximum purchase consideration of 225 MSEK subject to the fulfilment of certain growth and profitability targets during a twelve-month period ending no earlier than 31 May 2024, and no later than 31 July 2024. At maximum contingent purchase consideration, the multiple can amount to a maximum of 10.5x Spares' EBITA results. At the acquisition date, it was estimated that no additional purchase price will be triggered.

The initial purchase price amounted to 431 MSEK, which was paid at the closing on November 8. At closing, payment was made in cash through additional bank loans and existing cash. Financing was provided through expanded credit facilities of 510 MSEK to comprise a total of 1,110 MSEK at the acquisition date.

The acquisition of Spares Europe AB has contributed 179 MSEK to the Group's sales during the quarter. If the acquisition had been consolidated from the beginning of the fiscal year, the contribution would have been 547 MSEK to the Group's sales. Acquisition-related costs of 21 MSEK are included in "other operating expenses".

The acquisition strengthens Clas Ohlson's core business and creates new growth opportunities within a growing market segment. The market for the reuse of electronics is relatively underdeveloped in the Nordics, with considerable potential for growth as consumers and companies increasingly are choosing spare parts, repairs, and reuse rather than buying new units. This enables customers to act more sustainably while lowering their costs. Group surplus values, in addition to goodwill, have been identified in trademarks and customer relationships.

In the preliminary allocation of the purchase price, identifiable assets and liabilities are measured at fair value. Acquisition-related intangible assets relating to trademarks and customer relationships have been valued at 62 MSEK. These are subject to depreciation and deferred tax. The difference between the purchase price and the acquired net assets, including trademarks and customer relationships, has been recognised as goodwill. Goodwill is not amortised but is tested annually for impairment. Such impairment of goodwill is not considered to be tax deductible.

The table below shows the fair value according to the preliminary acquisition analysis.

Securities held as fixed assets, valued at fair value

The table below indicates fair value for financial assets in the Group. The financial instruments are categorized on three levels:

Level 1: Fair value established based on listed prices in an active market for the same instrument.

Level 2: Fair value established based on valuation techniques with observable market data, either directly (as a price) or indirectly (derived from a price) and not included in Level 1.

Level 3: Fair value established using valuation techniques, with significant input from data that is not observable in the market.

Change in fair value	-3.1	-99.1
Securities held as fixed assets, valued at fair value at the end of the period	6.3	58.9

Valuation method for securities held as fixed assets, level 3:

Company: MatHem, 0.7% shareholding

Valuation Method:

The assessed valuation implies a multiple of 0.5 times the company's revenues per 30th September 2023 and is based on latest available rolling twelve months revenue.

The assessed valuation takes into account Mathem's future capital needs. Mathem is valued at a discount of 21 percent compared to the multiple referenced from a peer group of inventory-holding ecommerce retailers.

Equity value of 6.3 MSEK. A +/- 10% change in the multiple would have affected the value by +/- 0.6 MSEK. Value changes are accounted for in total comprehensive income.

Investment in Mathem's equity instrument is not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the directors of the Company have elected to designate the investment in equity instrument as at FVTOCI (Fair Value Through the statement of Other Comprehensive Income) as they believe that recognising short-term fluctuations in the investment's fair value in profit or loss would not be consistent with the Group's strategy of holding the investment for long-term purposes and realising their performance potential in the long run.

No dividends was received from equity investment designated as at FVTOCI.

Forward contracts belong to the derivative category, which is used for hedging purposes. All derivatives are measured at fair value, established by using forward contract prices on balance-sheet date, meaning, level 2 in the fair value hierarchy according to IFRS 13. The company hedge the expected flow in each currency every month, with three to nine-month maturities. Forward contracts with negative market value are recognized in the item Current liabilities, non-interest bearing. Forward contracts with positive market values are recognized in the item Other receivables.

Accounting policies

Compliance with regulation and reporting standards

Clas Ohlson applies the International Financial Reporting Standards (IFRS) and interpretations from the IFRS Interpretation Committee (IFRIC) adopted by the EU. This interim report has been prepared in accordance with the Swedish Annual Accounts Act, IAS 34 Interim Financial Reporting and RFR 1 Supplementary Accounting Rules for Groups. Disclosures in accordance with IAS 34 Interim Financial Reporting are provided in the notes and elsewhere in this interim report.

Basis for reporting

The Parent Company's financial statements have been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's Recommendation RFR 2. The same accounting policies are applied as for the Group, except in those cases described under the section headed "Parent Company accounting policies" in the 2022/23 Annual Report on page 49.

For the consolidated financial statements, the same accounting policies and calculation methods as in the latest annual report are applied. No new or revised IFRS and interpretations applied from 1 May 2023 have had any discernible effect on the consolidated financial statements.

For a more detailed description of the accounting policies applied to the Group and Parent Company in this interim report, refer to the 2022/23 Annual Report, pages 44-49.

Alternative performance measures

This section contains a reconciliation of certain alternative performance measures (APMs) with the closest reconcilable items in the financial statements. As analysis tools, APMs are limited, and must be considered in their context and not as a replacement of financial measures prepared in accordance with IFRS. APMs are presented to improve an investor's evaluation of the operations, as an aid in forecasts of forthcoming periods, and to simplify meaningful comparisons of earnings between periods. Management uses these APMs, for example, to evaluate the operating activities compared with previous results, for internal planning and forecasts and to calculate certain performance-related remuneration. For definitions, refer to page 24. The APMs recognised in this quarterly report may differ from similarly named measures used by other companies.

Key ratio definitions

Clas Ohlson uses certain financial measures in this interim report that are not defined in accordance with IFRS. Clas Ohlson believes that these key ratios are relevant to users of the financial report as a supplement for assessing Clas Ohlson's performance. These financial measures are not always comparable with the measures used by other companies since not all companies calculate such financial measures in the same way. Accordingly, these financial measures are not to be regarded as a replacement for measures defined according to IFRS. The measures not defined according to IFRS are presented below, unless otherwise stated.
