## Suso Fernández's unique pieces

Suso Fernández is a ceramicist, sculptor and plastic artist, who develops his work in Taboada (Lugo). His pieces have a strong iconographic load, based on the expressive strength of the materials he works with: stone, wood, bronze, concrete and ceramics.

Suso Fernández is a ceramicist, sculptor and plastic artist, who develops his work in Taboada (Lugo). His pieces have a strong iconographic load, based on the expressive strength of the materials he works with: stone, wood, bronze, concrete and ceramics.

He makes unique functional and decorative pieces, inspired by tradition and nature and defined by texture combinations and their chromatic richness. His ceramic is coloured by oxides and vitrified. Colour and design stand out in his limited editions of each piece, between 50 and 100 units.

Suso Fernández also sculpts unique pieces in concrete, as he thinks it is a surprising material because of its elasticity, suitable for sculpture, murals and mixed with ceramics. Pieces go through a water-repellent process and the colours are highly resistant, so they can be used outdoors.

Alfombra Roja with ten years experience is in the forefront when it comes to creating business opportunities in Scandinavia, Spain and Latin America. Alfombra Roja opened in 2005 with its head office in Stockholm, Sweden. Maribel Alvarez, founder and director, saw the potential in business exchange between Spain and Scandinavia and decided to unroll the red carpet (alfombra roja) for Spanish and Scandinavian companies. Numerous projects developed successfully support our trajectory and our leadership in the Nordic and Spanish market.

Our extensive networking provides us with an important added value for foreign companies who want to visit or enter to Sweden, Norway, Denmark, Finland and Spain. Our multidisciplinary Scandinavian-Spanish team has knowledge in different business sectors and local languages (Spanish, Danish, Finnish, Norwegian, Swedish and English). Our professionalism, creativity, experience requirement and passion for our work are the basis of our success and our customers success.
