## Nel ASA: Receives purchase order for multiple H2Station<sup>®</sup> units in the Netherlands

(Oslo, 17 December 2019) Nel Hydrogen A/S, a subsidiary of Nel ASA (Nel, OSE:NEL), has received a purchase order from OrangeGas for the delivery of multiple H2Station<sup>®</sup> units for fueling of predominately light duty fuel cell electric vehicles in the Netherlands.

“We are delighted to be chosen as supplier for OrangeGas for their first fueling stations (H2Station<sup>®</sup>) which will predominately serve light-duty vehicles in The Netherlands. We look forward to assist OrangeGas with the deployment of the hydrogen fueling coverage, helping the transition towards zero emission transport in the Netherlands,” says Jens Egholt Rasmussen, Global Sales Director for Nel Hydrogen Fueling.

Marcel Borger, CEO and founder of OrangeGas said: “We are pleased to have signed this contract with Nel. These robust and state-of-the-art hydrogen stations allows us to refuel hydrogen vehicles in only five minutes in a safe, fast and reliable way. In OrangeGas we are committed to contributing towards a cleaner planet, and this is an important step on that journey. Nel has extensive experience within hydrogen fueling technologies, and we are looking forward to a good collaboration going forward, as we now build the first wave of hydrogen refueling stations.”

The contract has a total value of approximately EUR 3 million and also includes a service and maintenance contracts. The stations will be located in the Netherlands, and will expand the fueling coverage for hydrogen powered light-duty, and in the future also heavy-duty cell electric vehicles. The H2Station<sup>®</sup> units will be delivered during 2020.
