## EasyFills AB (publ.) First order to a Finnish supermarket.

**EasyFill AB has received a strategically important order to deliver its rotating shelving solutions to a Finnish supermarket chain. The order includes just over 20 sections of RotoShelf 1250/2 for Multideck display cases.**

*The order is the first of its kind in the Finnish market and is strategically important as the customer is K-market, part of Kesko, one of Finland's largest retail chains.*

*The order value is approximately EUR 22,000 and refers to deliveries to a first store in central Helsinki.*

### **Comment from CMO Jens Nisu:**

*We are pleased to present this first order to K-markt in Finland. The extensive market experience and the contact network of our Nordic sales manager Tommy Seger, has been the decisive factor in getting this order. Previously only a few RotoShelf units have been placed on the Finnish market in commercial branded beverage coolers.*

*Taking this first step for a broader establishment at store level in Finland is a step in the right direction and hopefully the first of many.*
