EasyFill's founder and board member Håkan Sjölander has passed away

With great sadness, EasyFill AB announces that the company's founder and board member, Håkan Sjölander, has passed away after a period of illness.

Håkan was one of the individuals who laid the foundation for EasyFill and a driving force behind the company's development. Through his entrepreneurship, perseverance and strong belief in the ideas, he built something that continues to live on and evolve.

He was a person who saw opportunities where others saw obstacles, and through his commitment, warmth and experience, he influenced both the company and everyone who had the privilege of working closely with him.

Håkan often said that to succeed in business you need three T's: tur (luck), tajming (timing) and talang (talent). But those who knew him also knew there was a fourth T: tålmod – the patience to never give up.

CEO Tobias Sjölander comments:

For me, this is a loss that is difficult to put into words. Håkan was not only the founder of EasyFill, he was also my father.

We worked together for more than 30 years and were in contact almost every day, often several times a day. He has been a natural and constant part of both my life and my work for so long that it is hard to grasp that he is no longer here.

Without him, the company would not exist, and without him, I would not be who I am today. He was my greatest support, a role model, and the person who has meant the most to me in my life. To me, he will always be the best father one could ever wish for. You will be deeply missed!

Chairman of the Board Richard Bagge comments:

Håkan was an entrepreneur, inventor, founder and long-standing CEO of EasyFill. He was a colorful personality, creative and inspiring, driven by an extraordinary energy and determination. Our country needs more people like Håkan!

About the EasyFill Group

EasyFill AB is a Swedish listed company that uses Swedish patented innovations to reduce food waste in grocery stores around the world by up to 40%. EasyFill is an innovation-driven company with a main focus on developing products that simplify the handling of goods in stores and restaurants. All products the company manufactures and sells are patented in the major markets in the world. Sales take place through the company's own companies, through retailers and together with manufacturers of soft drink refrigerators and refrigerator furniture manufacturers who in turn resell their products with EasyFill's products installed in around the world.

EasyFill has been listed on Spotlight Stock Market, Stockholm since May 2007.
