

SSRS invests in two more RescueRunners

The Swedish Sea Rescue Society (SSRS) has decided to invest in two(2) more RescueRunners to extend their existing fleet and capacities.

We are both proud and delighted that SSRS decides to extend their already existing fleet of approximately 50 RescueRunners with two more boats. These new RescueRunners will be delivered in May 2018 and immediately be put into operations. The cooperation we have with the SSRS organisation is very important and valuable to us in all respects and we very glad to receive this order.

Order value 700 000 SEK
