

# The Swedish Sea Rescue Society (SSRS) order another RescueRunner

**We are happy to announce that the Swedish Sea Rescue Society (SSRS) further expand their fleet of RescueRunners.**

Today SSRS have more than 50 RescueRunners operational at their 74 rescue stations. By ordering this RescueRunner SSRS will further increase their capacity to save lives at sea. Many of the SSRS RescueRunners have been in operation for over 10 years and helped save many lives at sea.

SSRS once developed the RescueRunner for rescue missions in shallow and rocky areas where other boats cannot go. SSRS is not only a customer to Safe at Sea, they are also an important partner when it comes to development and training.

"We are very happy to receive this order from SSRS and we hope that the RescueRunner will be very useful for the rescue station where it will be in operation," says Henrik Hartman, CEO of Safe at Sea AB (publ).

The RescueRunner will be delivered during Q4 2021.

Order value is approximately SEK 353.000
