Safe at Sea has received an order for the further development of a boat system from a NATO member country

Safe at Sea has received an order for the further development of a boat system.

The order value is SEK 600,000.

Delivery will take place during Q4 2026.

“We are proud and pleased by the trust our client has placed in us to further develop the system in collaboration with them,”

says Kaj Lehtovaara, CEO.

Safe at Sea AB manufactures, develops, and sells lightweight, flexible, and cost-effective maritime safety systems. These systems help save lives and streamline maritime SAR (Search and Rescue) operations; they are arguably the most effective systems in the world for rescuing people in distress from the water. The systems comprise equipment, specialized operational methods, and associated training. The core of Safe at Sea’s product range consists of the RescueRunner, SafeRunner, SeaRanger, GuardRunner, GRX, and SRX. Safe at Sea’s shares are listed on Spotlight Stock Market.
