

## Press Release

12 June 2020

# Net Gaming carries out restructuring and issues forecast for Q2 2020

Net Gaming's operations have performed well during Q2, showing both organic growth and improved underlying profitability in adjusted EBITDA. The Company is in an intensive transformation phase, after Robert Andersson took over as CEO, which means that a reorganisation has been initiated. The reorganisation, which is aimed at creating better conditions for future growth, means that the second quarter has been affected by non-recurring costs.

The reorganisation of the business and transformation to Acroud AB have begun during Q2. The reorganisation involves, among other things, closing the Swedish office and centralising the business to Malta, in order to create a more efficient and cost-effective organisation. The reorganisation will bring annual savings of EUR 0.3m, with full effect from Q3. The reorganisation will give rise to non-recurring costs of EUR 0.5m during Q2 2020, charged to operating profit (EBITDA). The Company has also decided to recognise an impairment loss of EUR 0.5m on assets related to the PokerLoco brand, which will not be included in the new growth strategy adopted in 2020, focusing on fewer products. In parallel, refinancing of the business has been successfully secured in Q2, also resulting in non-recurring costs of approximately EUR 0.3m related to a consent fee, charged to net financial items. Net financial items have also been adversely affected by EUR/SEK exchange rate fluctuations of approximately EUR 1.2m in the first two months of the quarter, as the bond loan is denominated in SEK. The Company's reported profit after tax for Q2 has been negatively affected by the above factors.

*"The underlying operations have shown positive development during Q2, with sequential organic growth of 14%, but also compared with the previous year. It should be noted that a large proportion of the items having a negative impact on Q2 earnings are non-cash items and of an accounting nature. The offensive initiatives and the reorganisation we are now implementing create the conditions for future growth and a brand new Acroud AB that will stand stronger in the future. With Sports betting on the doorstep and a company that is now optimised for the future, we feel strong as we embark on the growth journey we have begun. As proposed to the AGM, we also hope to be able to change our track to the new Acroud AB, which will be a new milestone,"* says CEO Robert Andersson.
