

# CLS appoints Kristian Waldeck as VP Medical Affairs and member of the company's management team

**Lund, Sweden - Clinical Laserthermia Systems AB (publ) ("CLS" or "the Company") today announces that the company has appointed Kristian Waldeck to the role of VP Medical Affairs and member of the Company's management team.**

Kristian Waldeck holds a PhD in Experimental Clinical Pharmacology from Lund University and a MSc in Electrical Engineering with a Biomedical Focus from Chalmers University of Technology. After his medical postgraduate education, Kristian has worked for over 25 years in senior positions in life science and medical devices, where the common denominator has been clinical implementation of technologies that has enabled the establishment of new value-creating treatment options or care processes. Kristian's previous work experience includes Arjo, Hemocue, Mitra Medial, Prostalund and his own consulting company.

"In line with the company's plan, we are working to build a solid foundation of clinical data for our products in selected indication areas and in selected geographic markets. The aim of this work is to ensure that CLS meets current regulatory requirements in the markets in which we are active and supports sales of our products in the EU, North America, and Asia Pacific. I am therefore very pleased to welcome Kristian to CLS. Kristian will be able to contribute with valuable knowledge and leadership to enable us to achieve the important milestones that lie ahead. He also complements our already strong team," says Dan Mogren, CEO of CLS.

Kristian Waldeck replaces Hoda Tawfik in the CLS management team. However, Hoda Tawfik will continue to contribute to CLS's continued development, but as a consultant in her own company, and will then be engaged in selected projects.

*The information was submitted for publication, through the agency of the contact person set out below on 19 December 2023, at 12:00 CET.*
