

CLS Receives Largest Purchase Order Worth SEK 23 Million for Prism[®] Business

Clinical Laserthermia Systems AB (“CLS” or the “Company”) today announced that it has received purchase orders totaling approximately SEK 23 million (€2.1 million) for its neurosurgery Prism[®] business from its strategic partner in neurosurgery. The orders represent the largest purchase order received to date for the Prism business and form part of the previously communicated agreement between the parties to accelerate the growth of the Prism[®] business beginning in 2026.

The purchase orders support the planned expansion of commercial activities, including increased market penetration, accelerated system placements and continued growth in LITT procedures and disposable procedure kits. The parties have also agreed on the product delivery planning as part of the accelerated growth initiative.

“We are pleased to now see the first tangible commercial outcome from the agreement reached with our strategic partner on the accelerated growth plan for the Prism business. These purchase orders, together with the agreed delivery schedule, further support our expectations of increased commercial activity and revenue growth going forward. At the same time, CLS remains fully committed to executing on its part of the agreement through continued investments in product scalability, product development, regulatory initiatives and operational readiness,” commented Dan J. Mogren, CEO of CLS.

As previously communicated, the accelerated growth plan includes coordinated activities related to market expansion, product development, regulatory initiatives and long-term strategic collaboration.
