

BrainCool AB (publ) increases revenues by 343% during the first three quarters of 2019

BrainCool AB (publ) increases revenues during the first 9 months of 2019 to 3,1 MSEK, a 343% increase compared to the corresponding period previous year (0,7 MSEK).

CEO Martin Waleij comments;

- The main part of the revenues come from the European operations, which in addition also shows a solid order intake so far in the fourth quarter. We also expect that revenues from the US market will increase.

BrainCool reports the third quarter financials on November 29, following the current share issue subscription period, thus the timeline of the capitalization is not affected.
