OptiFreeze AB has a patented technology that preserves the taste, shape and texture of vegetables, fruits and berries throughout the freezing and thawing process. OptiFreeze has furthermore developed methods that can improve the shelf life of vegetables, fresh cut fruits, flower cuttings, cut flowers and other plants. The same technology can be used to dry fruits, vegetables, herbs and spices aiming to reduce the drying time while preserving the fresh-like taste, smell and color. The technology opens new business opportunities for food and plant propagation industry all around the world. OptiFreeze is the result of a long period of research at the Institute of Food Technology at the University of Lund. The company is situated in Lund, Sweden and is listed at the Spotlight Stock Market
