# EQL PHARMA

Lund, March 25<sup>th</sup>, 2026  
EQL Pharma AB (publ)  
556713-3425

## Mellozzan® (melatonin) has been approved in Italy

**EQL's key product Mellozzan® has now received Marketing Authorization approval from the health authority in Italy (AIFA), where it will be provided to patients by EQL's licensing partner Italfarmaco S.p.A.. The launch of Mellozzan® in Italy is expected in the end of fiscal year 2026/27 or early 2027/28.**

Italy will be the second greenfield market for Mellozzan, after Germany, where EQL, with the help of Italfarmaco's local expertise and infrastructure, will build the brand and generate prescriptions. The response from doctors and patients in Germany has been very good and the EQL hopes for an equally positive response in Italy.

### **About Mellozzan®**

Mellozzan® contains the sleep hormone melatonin and is indicated for children with ADHD and suffering from sleep difficulties, where so-called sleep hygiene measures have not helped. Mellozzan® is also indicated for the short-term treatment of jet lag in adults.

### **About Italfarmaco**

Italfarmaco SpA is one of the most successful pharmaceutical companies in Italy with a group turnover of almost 1,1 billion euros in 2024 and extensive sales and marketing resources in a number of European countries.

EQL Pharma AB (publ) briefly

EQL Pharma AB specializes in developing and selling generics, ie pharmaceuticals that are medically equivalent to reference pharmaceuticals. The company currently has upwards of 47 niche generics (ie generics with limited competition apart from the reference pharmaceutical) approved in the Nordic markets. In addition to these, there is a significant pipeline of additional niche generics for launch in 2026 and beyond. The business is currently entirely focused on prescription pharmaceuticals, including hospital products, in the Nordic region and in selected European markets. EQL Pharma AB conducts its operations in Lund and is listed on the Spotlight Stock Market. EQL Pharma AB conducts extensive development work in collaboration with leading contract manufacturers and pharmaceutical companies in the EU and Asia, among others.
