EQL Pharma AB (publ) briefly

EQL Pharma AB specializes in developing and selling generics, i.e., drugs that are medically equivalent to original drugs. The company currently has 47 niche generics (i.e., generics with limited competition apart from the original drug) launched in the Nordic markets. In addition to these, there is a significant pipeline of additional niche generics for launch in 2026 and beyond. The business is currently focused entirely on prescription drugs, including hospital products, mainly in the Nordics and European markets. EQL Pharma AB has its operations in Lund and is listed on Nasdaq Stockholm stock market. EQL Pharma AB carries out extensive development work in collaboration with leading contract manufacturers and major pharmaceutical companies in the EU and Asia, among others.
