

## Sivers IMA's high-performance lasers gain traction in China

**Sivers IMA (Nasdaq First North: SIVE) today announced its subsidiary CST Global's XG-PON lasers show outstanding performance and are seeing rising demand in China.**

"We are seeing increased demand in the fiber-to-the-home market, especially in China. This is fueled by the strong preference for UK-sourced materials which gives us a unique position as a supplier. By offering lasers that perform significantly above the specification requirements of the International Telecommunication Union, our customers are as good as future proof," said Anders Storm, CEO of Sivers IMA.
