

Jolly update

Integral system components, sent to China in mid October are still in the custody of China's Customs Authority. CybAero and Jolly are actively working with Customs to resolve the delay.

FAT will resume when the components have been released, installed, and tested. CybAero's flight team is in China and awaiting resolution of the matter.

About CybAero

CybAero develops and manufactures Remotely Piloted Aircraft Systems (RPAS) for safer and more effective aerial operations in various environments, including those hazardous in nature. The company has made a great international impact with its APID One helicopter, which can be adapted for both military and civilian applications such as coastal and border surveillance, search and rescue missions, and mapping. CybAero's head office is located in the Mjärdevi Science Park in Linköping, Sweden. The company has around 50 employees and has been listed on the Nasdaq First North since 2007. FNCA Sweden AB is the company's
