Jobmatch partners with Spanish firm Cotera Performance: “Opening up new international markets”

Jobmatch Sweden, the provider of the certified occupational psychology testing tool Jobmatch Talent, has entered into a strategic partnership with the Spanish psychological consultancy Cotera Performance. The aim is to establish Jobmatch’s tests in Spanish-speaking markets.

“Jobmatch’s scientifically-based testing tools and Cotera Performance’s occupational psychology approach are a perfect match for enhancing corporate culture and employee wellbeing. Spain’s economy is booming and has a growing demand for labour – we see strong potential for rapid growth,” says Fredrik Nordén, Globalisation Manager at Jobmatch Sweden.

Through the partnership, Cotera Performance – which specialises in corporate culture, talent development, and employee wellbeing – can now integrate Jobmatch’s DNV-certified tools into its consultancy services. The collaboration also enables a new line of business for Cotera, offering clients improved recruitment processes.

“This partnership opens up the opportunity for international expansion, primarily into Latin America. Partly because of the large Spanish-speaking population, and partly due to the simplicity of using Jobmatch’s tests and sharing the results online between employees and HR staff,” says Rubén García García, CEO of Cotera Performance.

Fredrik Nordén, Globalisation Manager at Jobmatch Sweden and Rubén García García, CEO of Cotera Performance.

In recent years, Spain has experienced significant economic growth and is one of the fastest-growing economies in Europe. This growth has led to an increased demand for qualified labour, particularly in the technology sector.

“The tech sector has a great need for psychometric testing – they place high value on data-driven decision-making and operate in a state of constant growth.”

Scientifically certified by DNV

The scientific foundation of Jobmatch was a decisive factor for Cotera Performance in choosing a partner.

“The Jobmatch test tools help us to improve the quality of the data we collect, allowing us to provide tailored solutions to our clients.”

“Many of our staff have a background in clinical psychology – that’s what sets us apart from other players in the field. We’ve worked with many similar tools, but have never come across anything that matches Jobmatch’s precision and user-friendliness,” says Rubén García García, CEO of Cotera Performance.
