## **Change in Dustin's group management team – group wide LCP organisation to increase scalability and knowledge sharing**

**A common group organisation for Large Corporate and Public (LCP) is created to increase the pace of knowledge sharing and scalability within the segment. This means that LCP Nordic and LCP Benelux is merged into one organisation under the lead of Michael Haagen Petersen, today EVP LCP Nordic. In connection with the change, Angelo Bul, EVP LCP Benelux, will leave the group management team on March 30.**

Michael Haagen Petersen has worked at Dustin since 2008.

- There is a large potential to continue to grow our offering to large corporations and the public sector benefiting from the knowledge within the entire organisation and increase the scalability in our processes. One group wide organisation for LCP creates the preconditions for continued profitable growth, says Johan Karlsson, CFO and incoming CEO of Dustin.
- We are ready to take the next step where all parts of the organisation are group wide, with Michael Haagen Petersen leading the LCP organisation. He has built the Nordic organisation and business for large corporations and the public sector. I want to thank Angelo Bul for his contribution to Dustin, where he has played an important role in integrating Centralpoint's offering into Dustin, says Thomas Ekman CEO of Dustin.
