

Invitation to Dynavox Group's webcast following the interim report for the second quarter 2025

Dynavox Group will publish the interim report for the second quarter 2025 on July 18 at 07.30 a.m. CEST. Following this report, at 09.00 a.m. CEST, Dynavox Group will host a webcast for investors, analysts and media.

Dynavox Group's President and CEO Fredrik Ruben and CFO Linda Tybring will present and comment on the report. The presentation will be held in English and can be viewed as a live webcast. After the main presentation, a Q&A session will follow where the participants are welcome to ask questions by using the online chat function. If you wish to ask questions verbally, contact CFO Linda Tybring ahead of the presentation.

Details:

Time: Friday, July 18, 2025, 09.00 a.m. CEST

Join presentation: Link to [webcast](#)

Please make sure you are connected to the webcast by logging in to the Microsoft Teams service a few minutes before the presentation begins.

The presentation material will be available via Dynavox Group's [website](#). The interim report and a recording of the webcast will be available on the same page after the publication and webcast.

Welcome!

About Dynavox Group

Dynavox Group AB (publ) is the parent company for Tobii Dynavox, the global leader in assistive communication. Headquartered in Stockholm, and listed on Nasdaq Stockholm (DYVOX), Dynavox Group, together with its brands has over 900 employees and serves customers in 65+ countries. Tobii Dynavox's custom designed solutions enable people with disabilities such as cerebral palsy, ALS, autism and spinal cord injury to communicate with a voice of their own, develop literacy skills and live more independently. To date, hundreds of thousands of people worldwide have benefited from our integrated solutions, which include hardware, software, clinically developed language systems, mounting solutions, training, and dedicated support. We offer extensive funding expertise to facilitate funding for as many people as possible. As voice and motor impairments are common among our users, our solutions are accessed via alternative methods, such as eye gaze or touch screen. Using AI-based speech synthesis, we offer users a personalized voice identity in over 30 languages, for children and adults. For more information, please visit the Dynavox Group website:
