The shares may be acquired partly through an offer addressed to all shareholders and partly through trading on Nasdaq Stockholm. In the case of acquisitions on Nasdaq Stockholm, the price shall at the time of acquisition be the current market price with deviations that do not exceed the quoted price interval at any given time. The acquisition is mainly intended to fulfil the obligations under call option programs.

The Board is also proposed to be authorized, on one or more occasions, until the company's next Annual General Meeting, to have the right to decide on the transfer of the own shares the company holds at the time of the Board's transfer decision. The transfer may be effected through trading on Nasdaq Stockholm at a price within the quoted price range at any given time. The transfer of treasury shares may be used to cover the company's commitments in accordance with the proposed call option program in item 20.

The Board of Director's remuneration report (item 18)

The Board has prepared a remuneration report which is proposed to be approved by the Annual General Meeting. The remuneration report is among the Board's complete proposals on the company's website.

Decision on guidelines for remuneration to senior executives (item 19)

The Board of Directors established a proposal for new guidelines for the AGM 2020, adapted to new rules in the Swedish Companies Act, a proposal that was approved by the AGM. This year's guidelines are unchanged compared with the previous year, with the exception of what is stated below. The Board's complete proposal for guidelines can be read in a special appendix to this notice, entitled "The Board's proposal for guidelines for salaries and other remuneration to senior executives within the Troax Group", and can be found on the company's website www.troax.com.

The forms of compensation

In addition to the remuneration in the form of a fixed base salary, short-term variable remuneration (STI), pension benefits and other customary benefits, the CEO shall, in order to promote long-termism, also be able to receive long-term variable remuneration (LTI) linked to the Group's long-term growth development over a period of three years. LTI is maximized at one third of the base salary per year for a three-year period.

Decision on call option programs for senior executives (item 20)

The Board of Directors proposes that the Annual General Meeting resolves on a call option program aimed at senior executives. It is proposed that the Annual General Meeting instruct the Board to issue call options for a maximum of 300,000 shares, corresponding to a maximum of 0.5 percent of the total number of shares and votes in the company. Until the next Annual General Meeting, senior executives will be offered the option of acquiring call options of a maximum of 300,000 shares. The terms for the call options shall be based on market-based bases according to accepted models at each individual date of issue. The option premium shall constitute 10 percent of the share price at the time of issue. The term of the options shall be a maximum of 3.9 years from its issuance and the exercise period shall be 20 May 2025 - 30 June 2025. The exercise price shall be determined by an independent appraiser at each occasion according to accepted valuation models. The Board's proposal means that the Annual General Meeting approves that the company, with deviation from the shareholders' preferential rights, transfer up to 300,000 shares to the option holders at the exercise price determined for the options in connection with any exercise of the call options (subject to any conversion due to, among other things, the fund

issue, aggregation or division of shares, new share issue, reduction of share capital or similar action). At the time of the notice, Troax Group AB holds 133,000 own shares.

The Board of Directors also proposes that the meeting approves of transfer of shares acquired in accordance with item 18 for obligations under call option programs. The decision has been prepared by the Board in its entirety. The proposal is part of creating a long-term incentive for important employees. The proposal is considered to be of reasonable scope for employees and Troax' shareholders' collective. As before, there are no outstanding programs, as the programs that were launched at the 2018, 2019 and 2020 Annual General Meeting have not yet been utilized. The Board intends to return at future Annual General Meetings with similar proposals. As the program is offered at market terms and poses a financial risk to the executive, no social security costs are incurred.
