

Press release 2026-03-18

Update on Evolution's capital allocation for 2026

The Board of Directors of Evolution AB (publ) proposes that no dividend be distributed for 2025. This proposal represents a deviation from the company's capital allocation framework, which states that at least 50 percent of net profit should be distributed annually. The purpose of the company's capital allocation is to create long-term shareholder value, and the Board has assessed that a cash dividend is not the best way to currently achieve this. The Board will provide an update once further decisions regarding capital allocation for 2026 have been finalized.
