Important Information

The publication, release or distribution of this press release may be subject to restrictions in certain jurisdictions. Recipients of this press release in those jurisdictions where this press release has been published, disclosed or distributed should inform themselves of and observe any such restrictions. This press release does not constitute an offer of, or an invitation to acquire or subscribe for, any securities of Cline Scientific in any jurisdiction.

This press release does not constitute an offer or invitation to purchase or subscribe for securities in the United States. The securities referred to herein may not be sold in the United States absent registration or an exemption from registration under the U.S. Securities Act of 1933, as amended. The information contained in this press release may not be released, published, copied, reproduced or distributed, directly or indirectly, in whole or in part, in or into the United Kingdom, the United States, Canada, Japan, Australia, Hong Kong, New Zealand, South Africa, South Korea or any other jurisdiction where such release, publication or distribution would be contrary to applicable law or regulation.

Within the European Economic Area, no securities are offered to the public in any country other than Sweden.

This press release contains certain forward-looking information that reflects the Company's current views on future events and financial and operational developments. Words such as "intends", "estimates", "expects", "may", "plans", "believes", "estimates" and other expressions which imply indications or predictions of future developments or trends, and which are not based on historical facts, constitute forward-looking information. Forward-looking information is inherently subject to known and unknown risks and uncertainties because it depends on future events and circumstances. Forward-looking information is not a guarantee of future performance or development, and actual results may differ materially from those expressed in the forward-looking information.
