Pharmacolog

Pharmacolog moves to new premises

Pharmacolog have moved and is now situated in new, renovated premises in Ekeby bruk, Uppsala, entrance 2H since April 10th. In order to manage the increasing number of employees, the company needed access to larger premises.

The former office premises, where the company has been operating since 2014, were too small to be able to accommodate the increasing number of employees. The company has therefore moved to larger and more suitable premises in the same property in Ekeby Bruk, Uppsala. The company currently engages 9-10 people full time in the business, which will increase in the near future to manage planned market expansion and development of new solutions.

Mats Högberg CEO, comments: "Our former premises became too cramped simply, but fortunately a larger premise was available in the same property here in Ekeby so the move went very smoothly. We are in an expanding phase and the new premises give us room to grow. Several new employees will be recruited to participate and continue to develop Pharmacolog into a leading medical technology company at the forefront of technology development in order to improve and make the use of intravenous medication more efficient. "

About Pharmacolog AB

Pharmacolog is specialized in developing systems and solutions for more effective and safer use of intravenous drugs. The company's first product, DrugLog®, enables a nurse or pharmacist to quickly and easily verify that an injectable drug has the right identity and concentration. Pharmacolog's long-term vision is an individually optimized medication for each individual patient, considering all available parameters in the control and distribution of the drug. Further information regarding the company is available at www.pharmacolog.com. The company's Certified Adviser is Mangold Fondkommission AB, which can be reached on telephone number +46 8-5030 15 50 or through CA@mangold.se.
