

DrugLog® order from France

Pharmacolog have received an order for a DrugLog® system for placement at Groupe Hospitalier Intercommunal in Montfermeil, France. The system will be used for the final check of chemotherapy preparations at the hospital pharmacy. The order is the result of a public procurement where Pharmacolog won the order.

Pharmacolog has received an order for a DrugLog® system which will be placed at Groupe Hospitalier Intercommunal in Montfermeil. The system will be used there for final control of chemotherapy preparations made at the hospital pharmacy. The order value corresponds to approximately 650,000 SEK over four years. The system is planned to be delivered during the month of March.

CEO Mats Högberg comments: "We are very happy to be able to take an order in our newly started subsidiary so quickly. Our sales manager, who started on February 10 this year, has done an outstanding job of already successfully converting one of our many prospects into an order. In 2019, we had some challenges with our sales channel, so we are extremely happy about this order and see it as the beginning of a good trend for 2020."

About Pharmacolog AB

Pharmacolog is specialized in developing systems and solutions for more effective and safer use of intravenous drugs. The company's first product, DrugLog®, enables a nurse or pharmacist to quickly and easily verify that an injectable drug has the right identity and concentration. Pharmacolog's long-term vision is an individually optimized medication for each individual patient, considering all available parameters in the control and distribution of the drug. Further information regarding the company is available at www.pharmacolog.com. The company's Certified Adviser is Mangold Fondkommission AB, which can be reached on telephone number +46 8-5030 15 50 or through CA@mangold.se.
