

B. Braun orders DrugLog™ for two new installations in Spain

B. Braun Spain orders two complete DrugLog™ systems for installation at Hospital General Universitario Los Arcos and Hospital Provincial de Castellón.

B. Braun in Spain orders two complete DrugLog™ systems for installation at two of Spain's leading cancer hospitals, Hospital General Universitario Los Arcos in Murcia and Hospital Provincial de Castellón. B. Braun Spain is a partner of Pharmacolog and acts as the company's distributor in Spain. DrugLog™ is used for verification of finished chemo admixtures after pharmacy preparation and form part of the B. Braun Chemotherapy Ecosystem. B. Braun's solutions consists of a number of digital solutions aimed to ensure a safe and traceable chemotherapy during its preparation and administration. With OncoSafety Remote Control®, chemo administration is managed, controlled, and documented digitally. This reduces the risks to cancer patients and helps oncology nurses avoid errors made in the preparation and administration of chemotherapy.

Mats Högberg, CEO of Pharmacolog comments: "We have four installations in Spain through our collaboration with B. Braun which are now, after a short break-in and fine-tuning of work and preparation routines, running at full capacity. DrugLog which carries out quality control of the prepared substance is included as an important part of B. Braun's unique OncoSafety Remote Control® concept. Together, the products create a world-unique system for flexible and patient-safe management of chemotherapy treatments. We are very pleased to now deliver systems to two more cancer hospitals in Spain."

About Pharmacolog AB

Pharmacolog provides solutions and products that enhance work efficiency and safety when preparing injectable medication. Our goal is to help prevent medication errors and ensure maximum medication efficacy when treating patients with powerful yet potentially harmful injectable drugs. Pharmacolog's products help staff at pharmacies and hospital wards minimize the risk of errors in the compounding process. Furthermore, by verifying that drugs and narcotics used in surgery have not been tampered with, our solutions also make a vital contribution to preventing drug diversion.
