

PRESS RELEASE Stockholm April 30th 2018

ADDvise receives breakthrough order worth 3,3 MSEK

ADDvise Group AB's (publ) subsidiary, Surgical Tables Inc, has received an order worth approximately 3,3 MSEK. In 2017, Surgical Tables launched a collaboration with one of the world's three largest medtech companies to develop a new surgical table for spinal fusion procedures. The purpose of the project was to make the procedures more time efficient and to lower the infection risk. Spinal fusion is a surgical technique that joins two or more vertebrae to eliminate movement and back pain in the patient.

After six months of clinical evaluation, Surgical Tables has now received an order from one of the world's three largest medtech companies, the same company that has participated in the development project. The order comprises a number of the newly developed tables for spinal fusion. The order value amounts to approximately 3.3 MSEK and delivery will take place during 2018.
