Redsense Medical completes a directed new share issue of 1,500,000 shares, raising approximately SEK 73 million and the company's largest shareholder has sold shares

Redsense Medical AB (publ) (ticker: REDS) ("Redsense Medical" or the "Company") has, based on the authorisation granted by the annual general meeting on 22 June 2020, resolved on a directed new share issue to selected Swedish and international institutional investors. In total, 1,500,000 new shares were issued at a price of SEK 48.5 per share, corresponding to a premium of 1.3 per cent in relation to the 30 trading day volume weighted average price for the Company's share price on 8 October 2020. Through the new share issue, the Company will raise approximately SEK 73 million before issue costs. In connection with the directed new share issue, the Company's largest shareholder, Susanne Olausson, through her company, sold in total 1,500,000 shares to the investors at the same price as in the directed new share issue. In addition, the Company's managing director Patrik Byhmer, through his company, has acquired all remaining shares, totaling 318,419, from Susanne Olausson, through her company, who post this transaction will not own any remaining shares in the Company. The price per share was the same as in the directed new share issue. This means that the managing director Patrik Byhmer, through his company, will be the largest shareholder in the Company.

The board of directors of the Company has today, based on the authorisation granted by the annual general meeting on 22 June 2020, resolved on a directed new share issue. The directed new share issue encompasses a total of 1,500,000 new shares where the price for the shares has been determined through negotiations with a number of institutional investors and was set at SEK 48.5 per share. The Company intends to mainly use the proceeds from the new share issue to secure financing for the Company's continued growth journey, and especially the efforts in the US and the wound care project.

The directed share issue generated a very strong interest and has been carried out to the selected Swedish and international institutional new investors TIN Fonder, Handelsbanken Fonder, Swedbank Robur Microcap, Andra AP-fonden, OstVast Capital Management, Danske Invest and Aktia Asset Management. Through the directed new share issue, the Company will raise approximately SEK 73 million before issue costs. In connection with the directed new share issue, the Company's largest shareholder, Susanne Olausson, through her company, sold in total 1,500,000 shares at the same price as in the directed new share issue.

The board of directors' assessment is, based on the negotiations with the investors, that the terms for the share issue are market-based and that the price per share in the directed share issue accurately reflects current market conditions and demand.

The reason for deviating from the shareholders' pre-emption rights, is that a directed share issue is the most appropriate

alternative for the Company at this time, allowing it to raise capital in a timely and cost-effective manner, with the purpose of financing the Company's continued growth journey and to diversify the Company's shareholder base with local and international institutional long-term investors.

Through the directed new share issue, the Company will raise approximately SEK 73 million before issue costs. The Company's share capital will increase by SEK 150,000 from SEK 1,254,081 to SEK 1,404,081, by new issue of 1,500,000 shares, resulting in the total number of shares increasing from 12,540,810 shares to 14,040,810 shares. The new share issue results in a dilution of approximately 10.7 per cent of the capital and votes for existing shareholders based on the total number of shares and votes in the Company after the new share issue.

In connection with the share issue the Company has agreed to, with customary exceptions, not carry out any additional equity issues for a period of 180 days after the settlement date. In addition, the Company's managing director Patrik Byhmer as well as all board members who are shareholders in the Company, have agreed to, with customary exceptions, not sell any shares in the Company for a lock-up period of 180 days after the settlement date.

Advisers

In conjunction with the directed new share issue, the Company has engaged Danske Bank as Sole Bookrunner and Advokatfirman Lindahl as legal adviser.

About Redsense Medical

Redsense Medical is a corporate group with operations mainly in Europe and the United States. The company has developed the Redsense System, an innovation used for monitoring and alarm in the case of blood leakage in connection with a hemodialysis treatment. Redsense Medical solves one of the most serious remaining safety problems within hemodialysis – to quickly detect Venous Needle Dislodgement and catheter leakage to minimize blood leakage. The system consists of a patented fiber optic sensor, designed for either venous needle or central venous catheter, which is connected to an alarm unit. From the very start, the development of the company's technology has been based on the demands and safety requirements of healthcare providers in the dialysis sector.

Forward-looking statements

This press release contains forward-looking statements that reflect the Company's intentions, beliefs, or current expectations about and targets for the Company's future results of operations, financial condition, liquidity, performance, prospects, anticipated growth, strategies and opportunities and the markets in which the Company operates. Forward-looking statements are statements that are not historical facts and may be identified by words such as "believe", "expect", "anticipate", "intend", "may", "plan", "estimate", "will", "should", "could", "aim" or "might", or, in each case, their negative, or similar expressions. The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurances that they will materialise or prove to be correct. Because these statements are based on assumptions or estimates and are subject to risks and uncertainties, the actual results or outcome could differ materially from those set out in the forward-looking statements as a result of many factors. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this release by such forward-looking statements. The Company does not guarantee that the assumptions underlying the forward-looking statements in this press release are free from errors and readers of this press release should not place undue reliance on the forward-looking statements in this press release. The information, opinions and forward-looking statements that are expressly or implicitly contained herein speak only as of its date and are subject to change without notice. Neither the Company nor anyone else undertake to review, update, confirm or to release publicly any revisions to any forward-looking statements to reflect events that occur or circumstances that arise in relation to the content of this press release, unless it is not required by law or Spotlight's regulations.

Information to distributors

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares in RedSense Medical have been subject to a product approval process, which has determined that such shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "Target Market Assessment"). Notwithstanding the Target Market Assessment, distributors should note that: the price of the shares in RedSense Medical may decline and investors could lose all or part of their investment; the shares in RedSense Medical offer no guaranteed income and no capital protection; and an investment in the shares in RedSense Medical is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other(s)) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the directed new share issue. Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Bookrunner will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares in RedSense Medical.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares in RedSense Medical and determining appropriate distribution channels.
