

Main owners strengthen their position in SciBase

SWEDEN – September 10, 2025 - SciBase Holding AB ("SciBase") [STO: SCIB], a leader in AI-based devices for detection and prevention in dermatology, today announces that Ribbskottet AB, the company's largest owner, and Life Science Investment Fund, each has purchased approximately 7.5 million shares in SciBase in a block trade which occurred on Tuesday off the stock exchange from larger long-term owners.

"SciBase continues to impress through rapid growth and interesting collaborations, most recently with Castle Biosciences Inc, while the market still does not seem to have grasped what SciBase is achieving in skin and cancer analysis. When this stake emerged at an attractive price, Ribbskottet therefore did not hesitate to increase its position in the company," said Anders Bladh CEO of Ribbskottet AB.

Jan Poulsen, CEO at Life Science Invest Fund (LSIF), says: *"With this additional investment we are happy to strengthen our ownership in SciBase as we believe SciBase is on track for an exciting journey in the coming years and is a very compelling investment case at this low valuation".*
