

Multiconsult wins a new contract with Bane NOR SF

Multiconsult (Oslo: MULTI)

Bane NOR SF has selected Multiconsult to carry out construction design and tender documents for development of Movatn and Hakadal railway stations along the Oslo-Gjøvik line in Norway. The project includes preparation of platform extensions, pedestrian level crossings with easy accessibility for all users on both railway stations.

The contract value to Multiconsult estimated to NOK 31 million. Work will begin in the start of third quarter 2021, and the majority of the technical design construction works will be completed March 2022.

“Over the last 3-4 years, Multiconsult has built up solid expertise in railway projects. The award of this agreement confirms Multiconsult's strong competence and experience in multidisciplinary competence, digital solutions and well-thought-out working methods. We are very pleased that this is highly valued at Bane NOR SF”, says Håkon Bratlien, Head of Department Rail at Multiconsult.

The work will ensure good and safe accessibility to the stations, as well as adapt the platforms to new FLIRT train sets. The project will also facilitate development of the station area, extension of the platforms, a pedestrian bridge on Movatn and an underpass on Hakadal station.

The project is planned completed and put into operation by the end of November 2022.

The nomination of the contract to Multiconsult is subject to standstill period (karenstid) which expires on 26 June 2021.
