# EasyPark Group - one of Europe's fastest growing companies

For the second year in a row, Financial Times and Statista have acknowledged EasyPark Group among the fastest growing companies in Europe. The global mobility platform recorded a five year compound annual growth rate (CAGR) of 44 percent in transactions, placing EasyPark Group on the list for 2025.

EasyPark Group is present in over 20,000 cities across more than 90 countries. Since founded in 2001, the company has eased parking for millions of users. Today, EasyPark Group is guided by its vision of making cities more livable, and delivers full-service parking and transportation solutions to ease urban mobility around the world.

In 2022, the company made a strategic move by acquiring ParkMobile, marking the beginning of its expansion into the North American market. In the beginning of 2025, EasyPark Group expanded its scope further by acquiring Flowbird Group and Parkopedia.

This year EasyPark Group climbed 50 rankings in Financial Times and Statista's list of Europe's fastest growing companies.

"EasyPark Group continues its exciting growth journey, and we are honored to be recognized for our achievements once again. With over a decade of sustained, high double-digit growth, we remain committed to expanding our services and global presence. Our vision of making cities more livable drives us to help municipalities enhance urban life by optimizing space utilization through innovative products and data-driven insights. In 2025, we are focused on maintaining this momentum," says Cameron Clayton, CEO at EasyPark Group.

The FT1000 – Europe's Fastest-Growing Companies 2025 is a ranking of 1,000 companies in Europe that achieved a high growth rate in revenues between 2020 and 2023. [See the full list here.](#)
