Welcome to Qlik Market

The QlikView and Qlik Sense Solution Showcase

BizView is now listed on the Qlik Market portal. A very important step in the progress of BizView efforts to become a household name globally, has been taken starting off this new year. *BizView for Qlik Sense* as well as *BizView for Qlik View* are now listed on the Qlik Market portal. This will have a substantial impact on the status for our global partners, as it will bring credibility to their offering. This milestone is a major achievement in our efforts to make BizView the natural Performance Management choice together with the Qlik BI foundation.

Jens Karlsson, VP International Sales at Bizview Systems says "Getting approval and being listed on the Qlik Market portal, greatly enhances our penetration into global markets. Not only does it add credibility for us as a software provider, it will also have a great impact for our partners. From now on they can speak about BizView as the natural complement for the Qlik BI foundation that it is, knowing that Qlik themselves has approved to that. Certainly, our recent status as Qlik Technology Partner also adds to that.

Customers we have already know about this, but now the secret is out! If you are a Qlik BI customer, struggling with your budgeting and forecasting, possibly still in Excel, the choice of Performance Solution is very easy, as well as affordable. Qlik, also founded in Sweden, has had unparalleled success globally, and it is an honour for us to be welcomed in their partner community".
